

TAX BILL GETS RIGHT OF WAY

Action Early in February Plan of Smoot

Norris Makes Assault on Publicity Feature

King Opposes Repeal of Inheritance Levy

WASHINGTON, Jan. 27.—The tax-reduction bill was given the right of way by the Senate tonight immediately after it had completed action on the World Court.

After a wait of more than a week on the Senate calendar the revenue measure was unanimously passed by the Finance Committee, in charge of the bill. He expects to hold the measure constantly before the Senate in the hope of obtaining final action early in February. Debate will start tomorrow.

Assault on the bill was formally opened today by Senator Norris, Republican, Nebraska, with the introduction of an amendment proposing to open inheritance returns to public inspection, a provision repealed in the pending bill.

This was the first of several amendments which will be proposed by the group opposing the compromise reached by Republican and Democratic members of the Finance Committee on the House bill. Informal conferences among the group also have developed serious opposition to the proposed repeal of the inheritance tax and to reductions in the surtax rates as now provided by the bill. The Norris amendment gives publicity that is now permitted through publication of the amounts of income tax paid. The amendment now in force was adopted two years ago through a coalition of Democrats and Republican insurgents, but Senate Democrats have indicated they will make no fight at this time as a party for retention of publicity.

Senator King of Utah, a Democratic member of the committee, also has served notice he will fight for changes in the bill, opposing also the proposed repeal of the inheritance tax and publicity of income-tax returns.

Despite the organized fight against the bill, which appears certain, both Republican and Democratic leaders have declared they will make every effort to bring about final action on the measure early in February to insure tax reduction by March 15, when first income-tax installments are due.

Western Rail Rate Rises on Ore Refused

WASHINGTON, Jan. 27.—The Interstate Commerce Commission today refused to allow western railroads to increase rates on mineral ores moving to Utah and California smelting plants from mines in Nevada, California and Utah.

ICC said that it would not permit the railroads to raise rates on ores moving to Utah and California smelting plants from mines in Nevada, California and Utah.

DOLLY MADISON LIKE FLAPPER

Fourth President's Wife Used Rouge and Such, Woman Reveals

(BY A. F. NIGHT WIRE) WASHINGTON, Jan. 27.—Dolly Madison, wife of the fourth President, has been thrust into the spotlight which lately has been playing on the life and habits of George Washington.

Mrs. Madison, were she alive today, would be called a flapper, the Susan B. Anthony Foundation was told by Mrs. Harry Atwell Colman.

"She was frivolous, used rouge, dipped snuff and played cards for high stakes," is the way Mrs. Colman described her. She also credited the President's wife with having greatly influenced her husband in political matters.

SENATE VOTES COURT ENTRY

(Continued from First Page)

happen. Today any nation has the right to assert its rights through war. The Senate's position is that a nation which becomes a member of the League of Nations surrenders the right it now has. Every nation which sought to evade the League of Nations is a nation without absolute impunity, for if a judgment was given against it, the League of Nations would be a shield for wrong-doing instead of a court for proper adjustment.

"There are no sanctions in this court. This court cannot call on any nation or group of nations to enforce its decrees. The only enforcing power is public opinion. But it is none of our business, if other nations, after judgments have been rendered, undertake to enforce them. Every nation now has the right to use force."

Senator Borah wanted to know if the League of Nations was a covenant of the League of Nations sanctions for using force. Senator Norris replied that was the case. He added, however:

"What business is it of our whether the League or individual foreign nations go to war unless we wish to interfere in foreign affairs?"

Senator Underwood asserted that the real question before the Senate was whether the United States wished to become a member of the World Court or whether it wished to stand ostensibly for peace and yet find some way of avoiding entry into the court.

The Senate, he said, approved by the Senate make adherence of the United States to the World Court conditional upon the following:

That adherence shall not be taken to involve any legal relation on the part of the United States to the League of Nations or the assumption of any obligations under the League of Nations Treaty.

That the United States shall participate upon equal terms with other states members of the court in the election of judges.

That the United States shall pay a fair share of the expenses of the court.

That the United States may at any time withdraw its adherence and that the statutes of the court shall not be amended without the consent of the United States.

That the court shall not render any advisory opinions except publicly and after full hearing of the parties involved, and that it shall not entertain any request for an advisory opinion in any dispute in which the United States has no claim or interest without the consent of the United States.

The Senate agreed also to the following provisions of the Swann resolution:

That the signature of the United States to the World Court protocol shall not be affixed until the nations of the majority there shall have accepted these reservations as a part of the condition of adherence of the United States and so signed through an exchange of notes.

That recourse of the United States to the court shall only be through the negotiation of a special or general treaty between this country and other parties involved in the questions sought to be adjudicated.

That adherence of the United States shall not be construed as relinquishment of the traditional American policy of avoiding entanglement in foreign disputes.

That the United States shall not be bound by the decision of the court in any case in which it has not accepted the jurisdiction of the court.

That the United States shall not be bound by the decision of the court in any case in which it has not accepted the jurisdiction of the court.

That the United States shall not be bound by the decision of the court in any case in which it has not accepted the jurisdiction of the court.

That the United States shall not be bound by the decision of the court in any case in which it has not accepted the jurisdiction of the court.

That the United States shall not be bound by the decision of the court in any case in which it has not accepted the jurisdiction of the court.

That the United States shall not be bound by the decision of the court in any case in which it has not accepted the jurisdiction of the court.

That the United States shall not be bound by the decision of the court in any case in which it has not accepted the jurisdiction of the court.

That the United States shall not be bound by the decision of the court in any case in which it has not accepted the jurisdiction of the court.

That the United States shall not be bound by the decision of the court in any case in which it has not accepted the jurisdiction of the court.

That the United States shall not be bound by the decision of the court in any case in which it has not accepted the jurisdiction of the court.

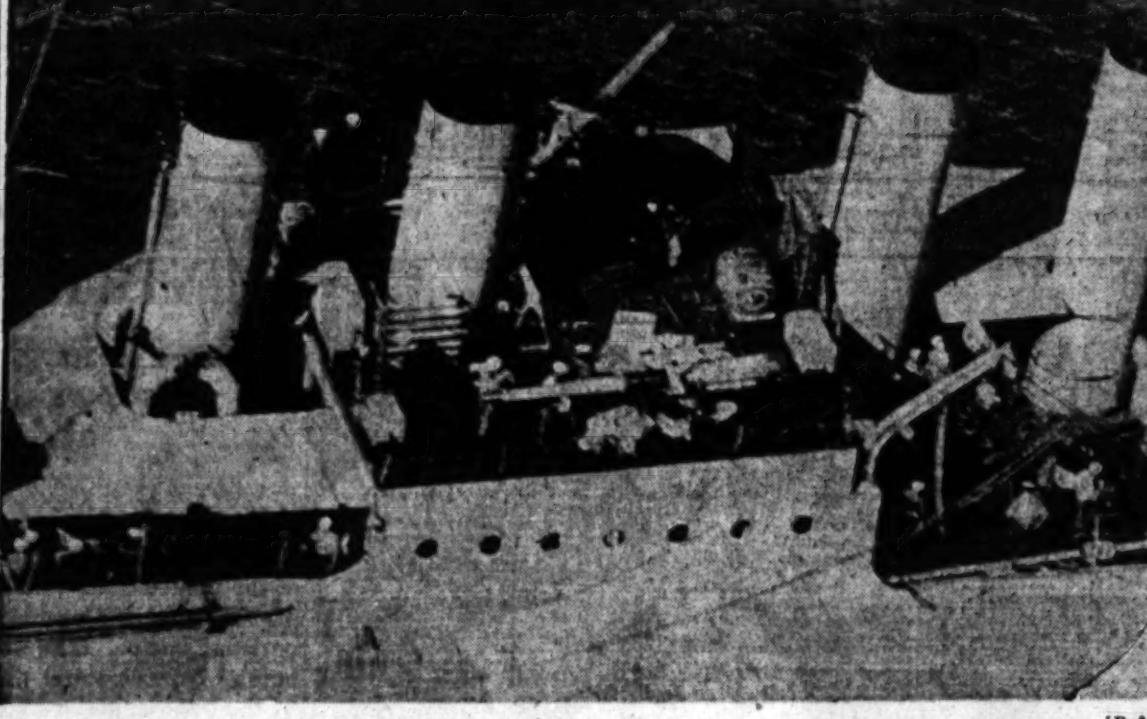

That the United States shall not be bound by the decision of the court in any case in which it has not accepted the jurisdiction of the court.

That the United States shall not be bound by the decision of the court in any case in which it has not accepted the jurisdiction of the court.

That the United States shall not be bound by the decision of the court in any case in which it has not accepted the jurisdiction of the court.

That the United States shall not be bound by the decision of the court in any case in which it has not accepted the jurisdiction of the court.

Just After Death Blast on Warship Off Coast

Air View of Battle Craft This airplane view of the Farragut was taken just after the fatal premature explosion of the gun shown in the center foreground on the deck of the destroyer. One of the members of the crew surrounding the gun was killed and eight were injured.

NEWSPAPERS GIVE VIEWS ON SENATE'S WORLD COURT VOTE

(Continued from First Page)

Following are editorial expressions of opinion on the Senate's ratification of the World Court protocol received by The Times by wire last night:

Baltimore Sun.—Failure of the effort to produce a panis in the United States today by propaganda charging that adherence to the League of Nations is a betrayal of the common sense of the American people.

For many years this nation has demonstrated its desire to submit differences with other nations to arbitration. It has innumerable treaties providing for the procedure and as has been repeatedly pointed out in the debate on the League of Nations, it is a matter of great moment and importance.

The important thing is to give our support to an undertaking which the other nations of the world are depending upon to rescue them from another such catastrophe as that from which they are now slowly and painfully emerging. The League of Nations is a long measure upon its abatement from what Washington called "entangling alliances," the United States is unwaveringly and unflinchingly in world affairs; such an international alliance as has produced the World Court is rather a matter of a disbanding alliance.

Topeka Capital.—The World Court is an experiment. It must prove its worth and these restrictions do not hinder it from doing that. Made up of able, far-sighted judges, it will constantly work for the good of the world. The common consent of the nations of the world will gladly submit their differences to its judgment.

Springfield Republican.—President Coolidge's administration must be awarded the distinction of having been the first to bring to the world the League of Nations, the United States is indispensable to the action taken certainly had its signature been withheld. The action taken certainly had its signature been withheld.

History may well award the credit of having arrested an extreme isolationist backwash incompatible with the maintenance of an open fairway to the world. If it has done no more than bring this action to a stop, leaving the future to determine the nation's ultimate course, it has not been a small service.

New York World.—The friends of international co-operation need to have won. The vote to ratify the League of Nations is a victory for the Permanent Court of International Justice, the League of Nations, the United States, and the world. The vote to ratify the League of Nations is a victory for the Permanent Court of International Justice, the League of Nations, the United States, and the world.

Besides the reservations there are two resolutions. These do not concern the rest of the world. The only debatable part of these resolutions is the one which provides that the United States shall not be bound by the decision of the court in any case in which it has not accepted the jurisdiction of the court.

COL. MITCHELL QUILTS ARMY

(Continued from First Page)

disregarding the "good of the service" issue unless the legal opinions he has sought run counter to that procedure. It is pointed out that the fact, recorded in Col. Mitchell's service record, that he resigned after he had been convicted by court-martial and sentenced to five years' suspension from rank, duty and command, would be of itself sufficient to allow the "good of the service" stigma to be ignored.

Details of Col. Mitchell's future plans were lacking due to his refusal to make any public announcement before final action on his resignation is taken. His close friends, however, furnished the foundation for reports that he has entered into a contract for a national aviation school, a charge which he has denied. He is believed to have plans to hunt big game in Africa.

It remains certain that the air critic will utilize every means to give aviation the place to which Air Service and to bring about revolutionary changes in the present administration of aviation in the Army and Navy Departments.

If accepted the resignation will provide a way out of the tangle in which Col. Mitchell became involved as a result of his persistent attacks on the two departments and his ardent struggle to have air power recognized as one of the three co-equal elements of national defense. It also would automatically remove the five-year suspension sentence imposed when the court-martial found him guilty of insubordination for denouncing the departments for "almost treasonable administration" of the national defense through failure to give aviation the place to which he believes it is entitled in the national defense system.

MAY LOSE POWER In the opinion of many who have followed the officer's activities, his resignation is an anticlimax to the fight he has waged. They do not believe he will be as a civilian to keep the sustained public interest in aviation which has marked his struggles since 1915 when he first clashed with his superiors on the question of adequate national defense. As an officer in the Army, recognized for gallantry in war and for peace as a civilian in making peace time assaults upon the constituted Army control system, it is pointed out, he achieved more than is predicted he will be able to do outside its ranks.

Col. Mitchell's resignation from civil life in Spanish War days. Dring the World War as a "flying general" commanding the air forces of the northwest, he achieved distinction and upon his return home was appointed assistant chief of the Air Service. Then he clashed with his chief, Maj.-Gen. Charles T. Menoher, who finally requested and was given duty in the Air Service. He was then succeeded by Maj.-Gen. Mason M. Patrick, present head of the service.

CRISIS CREATED BY FRANC PLOT

Briand's Demand Puts Strain on Hungarian Relations

Press Muzzled to Prevent Inflaming of Populace

French May Present Case to League of Nations

BY CABLE—EXCLUSIVE DISPATCH: BUDAPEST, Jan. 27.—Formal demand by France that French officials be permitted to participate in the police investigation of the 20,000,000-franc counterfeiting plot engineered by Prince Windisch-Graetz has created a critical situation which diplomats fear will strain relations between France and Hungary.

The note from Premier Briand to Prime Minister Count Bethlen was delivered yesterday and provoked instant comment that it was an attack on Hungarian national sovereignty.

PRINCES INVOLVED
The plot has already involved two princes, other nobles, the State Chief of Police, a bishop and other political notables.

The Hungarian government immediately recognized the seriousness of the situation by slapping a severe censorship on the press. Editors are threatened with arrest for any unfavorable discussion of Premier Briand's action. Government officials were warned that it will be considered treason to tell foreign reporters anything.

Should Count Bethlen and the Hungarian Parliament refuse to grant the French demand, it is believed by high authorities that the French will present their case to the League of Nations. It even is hinted that the French will demand the exclusion of Hungary from the League.

SUSPECT ROYALIST PLOT
It is pointed out by diplomats cognizant of the French plans that France is less concerned with the Hungarian counterfeiting than with the relationship of the counterfeiter with the German Fascist movement. The French have reason to believe that a joint Austro-Hungarian-German Fascist movement is planned for this coming spring. Prince Windisch-Graetz and his accomplices were merely small game in a big movement to establish Fascist dictatorships in Central Europe. French experts believe they can obtain the facts in the cross-examinations of the Prince and his fellow-prisoners.

The French are said to have considerable evidence of the existence of a monarchist movement in the former central empire for the purpose of restoring the kings of three countries. The French want the plot unfolded in Budapest and not Paris. Hence, the sharpness of M. Briand's step.

AFTER BLOW OF SON'S ABDICATION

King Ferdinand of Rumania (left) is pictured as he left the new historic council at Sinaia, where the abdication of Prince Carol as Crown Prince of Rumania was accepted, and Prince Carol's young son Michael named as the successor. This is one of the first actual photos in connection with the Rumanian royal family quarrel to be received in this country.

[P. & A. Photo]

RUSSIA SEES GREAT CHANGE

Fallacy of Communism Proven to Soviets, Nation Turns Back to Normal Methods

BY CABLE—EXCLUSIVE DISPATCH: RIGA, Jan. 27.—Leon Trotsky has returned to a position of power; the Third Internationale has curtailed its revolutionary propaganda in Europe; the soviet government has established a vodka monopoly; the predicted huge Russian grain harvest failed to materialize; private interior trade and licensed export and import companies are now permitted to operate in Russia; German industries are showing a marked interest in the Russian market; the Bolsheviks have declared an armistice in their war against religion.

These may be considered the chief events which have transpired in Russia during the past year. They are all-important, for they signify that the Bolsheviks are turning their attention to interior conditions in Russia. And since all of the Communist leaders agree that the world revolution has been indefinitely postponed they are now seeking to strengthen their soviet government so that it will endure until capitalistic Europe revolts against the economic domination of capitalistic America. Then the Bolsheviks hope to have another chance to overturn present-day society.

Europe, according to the Moscow press, has succeeded in stabilizing its economic life with the assistance of America. An signing the Locarno pact, Europe made the first step toward establishing the United States of Europe. When this union is effected by economic necessity the commissars hope that Europe will definitely refuse to pay America the war debts and this will form a crisis which the Communist parties abroad are preparing for.

TROTSKY RETURNS
Trotsky's sudden return to a position of influence in the Communist party was one of the chief political events of the year in Russia. For voicing Communist heresies Trotsky had been expelled from the Communist party and demoted from his position as commander in chief of the Red army. He left Moscow for several months and then was recalled.

Trotsky had found a friend and supporter in Commissar Dzerzhinski, head of the state political police (Cheka). Felix Dzerzhinski had been placed in charge of the supreme council of national economy which runs the Russian industries. He investigated several of the soviet trusts and syndicates and made a large number of arrests which resulted in almost as many executions. He found graft, rampant, general inefficiency and not one factory producing manufactured goods at a profit. All were existing on state subsidies.

Having a free hand and not asking the Communist party for permission, Dzerzhinski established a piece work system advocated by Trotsky. He also installed the American time card system, also advocated by Trotsky. He even went so far as to create a new class in Russia, the Specialists, who are the survivors of the capitalist regime whom he had not executed, and offered them large salaries to take charge of the factories, the mines, the mills, and every other state run enterprise which was getting subsidies from the soviet government.

WORKERS PROTEST
The employment of the specialists by the government created a roar of protest from the Communists whom these specialists replaced. Dzerzhinski was called to task before the Communist party. He merely stated he had found these measures necessary and that ended the discussion.

Needing some assistance and especially a man who could voice his policies, Dzerzhinski called Trotsky back from the Caucasus. Trotsky became Dzerzhinski's assistant and he has been slowly advanced to higher posts.

Under the czar's government of Russia the Foreign Office was divided into two sections. One handled European affairs and the other confined its activities to the Near and Far East. But every decision which the European section prepared was first passed upon by the eastern division, which for years controlled the foreign policy of czarist Russia. Dzerzhinski did not oppose the expenditures of the Third Internationale for propaganda in the

Revolutionary Heroine's Body to be Removed

ALBANY (N. Y.) Jan. 27.—J. P. Morgan has given permission for the removal of the remains of Margaret Corbin—"Capt. Mollie"—of Revolutionary War fame—from the grave on his estate at Highland Falls. They will be reburied in the West Point Cemetery in April, with ceremonies conducted by the Daughters of the American Revolution.

"Capt. Mollie" did her bit in the Battle of Fort Mifflin, on Upper Manhattan island, November 18, 1776. When her husband, a gunner, was struck down by a ball, she took his place and served with great credit until she was wounded by three grapeshots. Her battle wounds were the ultimate cause of her death.

TEXAS PIONEER PASSES
(EXCLUSIVE DISPATCH) SAN ANTONIO (Tex.) Jan. 27.—Joseph Beckman, 77 years of age, pioneer boot and shoemaker and for many years an Alderman in the City Council of the early days, died at his home here following an illness of nearly two weeks.

NONPARTISAN ERA FORECAST

Depew Says Coolidge-Smith
Ticket Possibility

Cites Tax Bill Harmony as
Political Precedent

Veteran Praises President
for Economy

(BY A. P. NIGHT WIRE)
NEW YORK, Jan. 27.—(Repub-
licans and Democrats marching
arm-in-arm to the polls in 1928
and voting a nonpartisan ticket,
with Calvin Coolidge for President
and Gov. Smith for Vice-President,
was pictured as a possibility by
Chauncey M. Depew, in an address
today before the Pilgrim's Society.
He described the present as the
"most wonderful age no nonpartisan-
ship" in politics in his seventy
years of experience.

"I was born in a day of party
politics," Mr. Depew said, "and as
a lad I learned to shout for my
party, march for my party, fight
for my party, and starve for my
party, if necessary. What do we
find today?"

"A tax bill, always the subject
for acute controversy and party
feeling, being passed unanimously
by the House of Representatives
and slated to pass the Senate with
comparatively little agitation. I
think Cal Coolidge must have stru-
dled old Ben Franklin, for he has
decided not to go up in an air-

plane and view the affairs of the
nation from some God-like position
on high, but to come down to
earth and meet the response of
the people for economy and thrift.
"And if the present general prop-
erty continues and if the people
continue to devote themselves to
business, if employment continues
plentiful, there will be another
miracle in 1928."

Boy Saved From Electric Chair for Life in Cell

(BY A. P. NIGHT WIRE)

HARRISBURG (Pa.) Jan. 27.—
Saved from the electric chair, Wil-
liam C. Cavellier, 15 years of age,
now must spend his life in State
prison for killing his grandmother
for \$50.

The execution had been set for
next Tuesday. Yesterday the State
Board of Pardons commuted the
sentence.
The boy's attorneys said at the
hearing before the Board of Par-
dons that he never had a chance
from the time he was born. They
said he was not aware of the enormi-
ty of the act when he shot his
88-year-old grandmother for the
purpose of robbery; two years ago.
Rabbi Philip Bookstaber of Har-
risburg asked the board to follow
the precept of the prophet, Ja-
sus Christ—Forgive them for they
know not what they do.

FISH COME BY TRUCK
(EXCLUSIVE DISPATCH)
TUCSON (Ariz.) Jan. 27.—Fresh
fish now are being delivered in
Tucson from the Gulf of California,
transported in three-ton lots by
means of a refrigerator truck. The
journey of 215 miles, is made in
about twelve hours.

CARNEGIE FUND HEROES NAMED

Twenty-nine Acts of Bravery
Win Recognition

Fourteen of Those Cited Did
in Rescue Attempts

Three Californians Cited in
Commission's List

(BY A. P. NIGHT WIRE)
PITTSBURGH, Jan. 27.—The
Carnegie Hero Fund Commission,
meeting in twenty-second annual
session here today, recognized
twenty-nine acts of heroism. Four-
teen of those cited lost their lives
in heroic deeds. In each case a
bronze medal was awarded.

The dependents of those who
sacrificed their lives were given
pensions aggregating \$10,140 a
year. In six cases money awards
totalled \$9600 for educational pur-
poses.

Five thousand dollars was
awarded for other worthy pur-
poses. Two of the citations named
women, while another named a
16-year-old girl.

The heroes who lost their lives
were:

Ernest Newton, Box 56, Ran-
dolph, O., clergyman, died at An-
dover, O., August 12, 1925, when
he attempted to save a woman
from drowning. His widow re-
ceived a bronze medal and benefits
of \$70 a month, with \$10 addi-
tional for two children.

Elmer I. Abbott, Rural Route 1,
Torrington, Ct., 62-year-old school
boy, drowned attempting to rescue
a factory hand at Torrington, Ct.,
July 21, 1925. His father received
a bronze medal.

DIES IN RESCUE ATTEMPT
Charles Hunter Dukeman, Cur-
tin, Pa., railroad brakeman, killed
by a train when he attempted to
save a man at Bell's Landing, Pa.,
October 9, 1924. His father re-
ceived a bronze medal.

Arthur Brown, 3, Robinson
street, Canaboharie, N. Y., died at-
tempting to rescue a farm hand
from suffocation in a vinegar tank
at Canaboharie, N. Y., October 5,
1925. His widow received a bronze
medal and benefits of \$25 monthly.

Charles E. Murray, Box 66,
Shirley, Mass., died when he
tried to rescue a fellow-laborer
from a sewer man-hole at Leom-
inster, Mass., October 4, 1924.
The widow was awarded a bronze
medal and benefits of \$25 a
month.

Amos Franklin Cantrell, Route
1, New Market, Ala., farmer, died
attempting to save another farmer
from a gas-filled well at New Mar-
ket, Ala., May 14, 1925. The widow
received a bronze medal and bene-
fits of \$45 monthly, with \$30 addi-
tional for six children.

Henry W. Meyers, Box 1942,
Roundup, Mont., died attempting
to save a girl from drowning at
Roundup, June 28, 1925. His
widow was awarded a bronze
medal and \$45 monthly, with \$35
a month additional for seven chil-
dren.

NEGRO HERO DROWNS
Felix Hood, negro, 110 Beach
street, Fairmont, W. Va., attempt-
ed to save a mother and daughter
from drowning at Fairmont, July
13, 1924. The widow received \$60
a month with \$20 additional for
four children, and a bronze medal.

H. Bunyan Thomas, Rural Route
2, Unionville, N. C., died attempt-
ing to save a fellow-farmer from
suffocation in a well at Monroe,
N. C., September 9, 1925. A bronze
medal and \$45 monthly, with \$15
additional for three children, was
awarded the widow.

William T. Knight, 416 West
Second street, Elk City, Okla., died
attempting to save a girl from
drowning at Delhi, Okla., August
23, 1925. The widow received \$75
monthly, \$10 additional for two
children and a bronze medal.

Edgar C. Broyles, Oklahoma,
Miss. negro, died attempting to
save a man from drowning at
Kosciusko, Miss., July 17, 1924.
His widow received benefits of \$70
monthly; \$10 additional for two
children and a bronze medal.

Jens A. Schmidt, 346 Yetman
avenue, Totterville, Staten Island,
N. Y., died attempting to save
a man from drowning at Totterville,
N. Y., October 10, 1925. A
bronze medal and benefits of \$75
a month with \$5 additional for a
son was awarded the widow.

CLERGYMAN DIES
Dayton Baird Miller, 757 Que-
bec Place, Northwest, Washington,
D. C., clergyman, died attempting
to rescue a boy from drowning at
Edgewater, Md., August 22,
1925. His widow received a bronze
medal, \$75 monthly and \$5 addi-
tional for a daughter.

M. Columbus Blaco, Big Piney,
Wyo., died attempting to save a
man from suffocating in a mine at
Quinton, Okla., August 11, 1924.
His widow was awarded a bronze
medal and \$75 monthly with \$19
additional for two children.

Among other heroic deeds re-
cognized were:

Alice R. Geary, 419 Highland
avenue, San Bernardino, Cal., 84
years of age, nurse, saved a boy
from a runaway team of horses at
San Bernardino January 19, 1923;
bronze medal.

Mary Blanche Nelson, 6809
Ocean View Drive, Oakland, Cal.,
41, housewife, saved a boy from
drowning at Camp Curry, Cal.,
June 24, 1922; bronze medal.

Wayne W. Glickert, Sunset
Beach, Cal., saved a boy from
drowning at Sunset Beach, April
22, 1922; bronze medal.

NAVY HAS NEW
PLANE ENGINEPackard Company Builds
Miracle MotorDevelops 600 Horsepower in
Fifty-Hour TestDescribed as Far Superior to
Liberty Design

(BY A. P. NIGHT WIRE)

WASHINGTON, Jan. 27.—Development of a new airplane engine by the Packard Motor Company of Detroit was announced today by the Navy Department as "among the most striking developments of modern times."

Orders already have been placed by the Navy for seventy-four of the motors, described as a great advance over the Liberty motor, to the development of which the Packard company was an outstanding contributing factor. The Navy announcement said "it develops half again as much power as the Liberty when subjected to tests that have in the past rendered Liberty engines unfit for further running."

The new motor develops 600 more horsepower and weighs 150 pounds less than the Liberty motor. Designed as a 450-horsepower engine at 1800 revolutions a minute, it developed during a fifty-hour test with throttle wide open 600 horsepower at 2500 revolutions a minute. The Navy will use the motors in a squadron of fighting planes; for aircraft carriers Lexington and Saratoga, now nearing completion; for two new PN-10 planes, improvements on the PN-1 No. 1 which attempted the non-stop flight to Hawaii, and for ten new Loening amphibian planes, such as were used by the MacMillan Arctic expedition last summer.

MAY CLEAR MYSTERY

Portland Coroner Thinks Body in
Slough That of San Diego Man

(BY A. P. NIGHT WIRE)

PORTLAND (Or.), Jan. 27.—The Coroner's office announced today possible identification of a body found recently in a slough near here as that of James Nielson, officer on the steamer West Nornstun, whose nearest relative has been listed as Mathilda Nielson, 118 Fifth street, San Diego.

Nielson had been missing from a hotel, where he had left a grip and personal effects, including letters.

Inquiring at the morgue, a shipmate was given a description of the body found in the slough. It had been buried, but a minute description was on file. Nielson had a scar from burns on the left arm and dental work like those of the dead man.

WORLD IMPORT LABOR

PHOENIX, Jan. 27.—Insurance of special permits for the entrance of "seasonal labor" from Mexico has been favored by a resolution of the directors of the Tucson Chamber of Commerce.

Court Gives Him Right to Punish Her

Mrs. Rosie Baker

(P. & A. Photo)

(EXCLUSIVE DISPATCH)
JOPLIN (Mo.), Jan. 27.—"If she doesn't mind you, spank her," was the edict laid down by Judge Grant Emerson of Joplin. In punishing Mrs. Rosie Baker, 16 years of age, to her husband, after sentencing her to the reformatory.

WATER PLANT STOCK

Plant Capitalized at \$5,000,000 Sold
Out For \$275,000

(BY A. P. NIGHT WIRE)

SAN FRANCISCO, Jan. 27.—A perfectly good water and power plant capitalized at \$5,000,000 and having a physical valuation of \$275,000 was allowed by the State Railroad Commission today to sell out just because it has nothing to do and nowhere to go.

The plant is the Northern Water and Power Company of Nevada county. Despite its imposing capitalization and physical value it told the commission that it did not business at all last year, and collected only \$75 annually in 1922.

FORD ACQUIRES
OLDEST SCHOOLLittle Red Building Erected
in 1801 BoughtOld-time Equipment of Birch
Roads Still ThereMagnet to Move Structure
to Village Museum

(EXCLUSIVE DISPATCH)

WINCHENDON (Mass.), Jan. 27.—Ford will soon add to his collection of early American buildings at Sudbury the last of the "little red schoolhouses" that once dotted the crossroads of almost every New England town. Arrangements have been completed by a representative of Mr. Ford for the purchase of the little district schoolhouse on the Gardner-Winchendon road.

This little building was erected in 1801 and it is believed to be the oldest authentic little school building in New England. And it is painted red. No one knows when the last coat of paint was applied to the hand-painted clapboards, but beyond a few shabby places on the weather side the building is in a fine state of preservation.

The inside of the school building is today just as it was when the last class occupied it in the years following the Civil War. The old-fashioned pulpit-like rostrum, used by the teachers still stands in one corner. The old-fashioned desks, much carved with initials and cryptic inscriptions, are there, and in one corner a heavily drawn pencil line indicates the bounds within which unruly pupils were confined.

The "dunce" bench still stands firmly against the wall near the master's bench, and a well-worn bunch of witch-hazel switches, hung by a thong from a nail in one corner, adds a convincing touch of realism for the few old pupils who annually make the pilgrimage to the scene of their early struggles with the three R's.

This spot has been the scene of plagues and reunions every year, although in recent years the number of visitors has greatly decreased. Originally known as No. 5, the school later was changed to No. 6. Wheeler Poland, who later became a financial power in Worcester county, once taught school within its walls, and Samuel Litch, whose father was a leader in the Rebellion, was also a master there. Litch afterward became an author and published several textbooks that were used in the schools.

Mr. Ford probably will have the building moved to the vicinity of the Wayside Inn, but beyond that his plans have not been learned.

DAWN-TO-DUSK FLYER

CAUGHT BY DARKNESS

(BY A. P. NIGHT WIRE)

NEW BRUNSWICK (N. J.), Jan. 27.—The Fokker monoplane piloted by Lieut. George H. Pond, U.S.N., which left Jacksonville, Fla., today on an attempted dawn-to-dusk flight to New York, was caught by the overtaking night and forced to descend at the air mail flying field here with the goal almost reached. He descended at 8 o'clock. Pond left Jacksonville at 6 a.m., today.

CHANGE COMING
IN STAGE FIELDPlaywright Predicts Drama
Due for RevolutionSex Plays and Nude Revues
Foisted on PublicAmerican Taste is for Real
Merit, Says Critic

(BY A. P. NIGHT WIRE)

NEW YORK, Jan. 27.—Attacking "sex plays" and revues in which nudity and vulgarity are featured, Channing Pollock, the playwright, forecasts a revolution within the American theater during the next five years which will result in "real drama" coming to the forefront.

The "revolution" had its inception with the Little Theater movement throughout the country and the organization of the Theater Guild here, Pollock said. He expects it will be carried on by them and the universities, women's clubs, churches and dramatists of the nation.

"With the passing of Augustin Daly and Charles Frohman, the theater lost its large attendance of people who wanted the best in art, because a new group of producers, with different viewpoints, succeeded them," he asserted. The latter took the position when there was no demand for real drama.

DEMAND FOR ART

Then came the Theater Guild and proved that there was a audience for the best plays—that the theater should and could be conducted as an art. Until then it virtually was impossible to get a play on Broadway unless it suited the purposes of the producers.

Now our churches are becoming interested in the theater, evidenced by the movement of the Federal Council of Churches to recommend support of the best types of plays. Women's clubs are helping. Our universities are developing dramatists.

The Little Theater movement is very similar to the guild. Certainly, from these sources will come intelligent producers and managers, who, unlike many of the present, will recognize and select real drama for our stage.

"DOLLAR THEATER"

Pollock still would like to see his plan for the "dollar theater," in which no seat would sell for more than \$1, carried out. He would present one hundred plays in the New York houses and send them on tour to similar theaters in other cities.

The plan for the rehabilitation of the road show business, which has been ruined by the trash and rot foisted upon the cities by our producers, Pollock said. "It also would enable us to give short runs of the plays in each city and employ our actors and actresses."

The playwright does not expect the "revolution" to be carried out suddenly, but he believes that at the end of five years the theater will be represented by an artistic theater, with real drama.

Mexican Army
Will Take Over
Border Patrol

(BY CABLE-EXCLUSIVE DISPATCH)

MEXICO CITY, Jan. 27.—President Calles has directed that the fiscal guards which are now doing the work of patrolling the American frontier be mustered out and that the work be taken over by the Federal army. Additional troops will be sent to the border for that purpose. It is expected that the change will be completed by the end of this month.

Much care is being taken in the selection of the forces which are to be devoted to this purpose, as they will have the double task of preventing smuggling and of protecting the border against any possible filibustering expeditions organized in the United States.

The action was taken by the President in view of the increased responsibility placed on Mexico in connection with the anti-smuggling treaty, recently entered into with the United States. The treaty provides against smuggling of all kinds but has particular reference to contraband of narcotics and intoxicants and the illegal entry of aliens.

NEW YORK'S RECORD

SKYSCRAPER TRADED

(EXCLUSIVE DISPATCH)

NEW YORK, Jan. 27.—A slender eighteen-story skyscraper known as the Chimney, standing at Broadway and Wall street, opposite Trinity Church, New York, was reported to have been sold by Frederick Brown, real-estate operator and its owner for little more than a month to a syndicate of western bankers. What price the syndicate paid could not be learned, but a St. Louis group, which acquired the site in 1905, paid \$274 a square foot, still a record price. The unique office building facing old Trinity and the scrap of ground from which it rises are assessed for taxation purposes at about \$1,100,000, of which \$375,000 represents the value of a strip of land extending 29.10 feet on Broadway and 29.10 feet on Wall street.

DISTRICT FORESTER

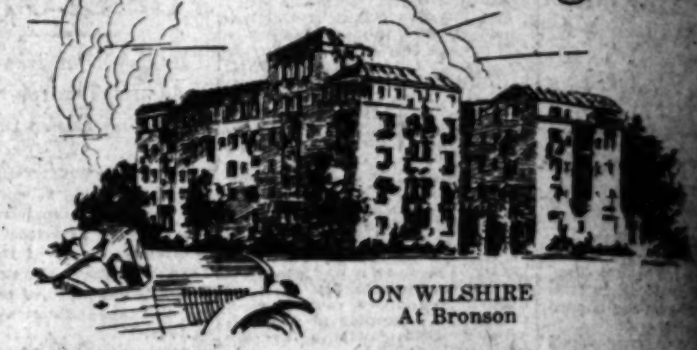

TENDERED PROMOTION

(EXCLUSIVE DISPATCH)

SAN FRANCISCO, Jan. 27.—Leaving an excellent record of achievement behind him in the development of California's national forests, Paul G. Redington, District Forester, is soon to leave for Washington, where he will assume the duties of assistant forester in charge of the public-relations work of the service. Mr. Redington, in his years of activity as district forester has made his record on the basis of complete co-operation with the people of California, and in doing so has not only gained a host of friends but has done much toward educating the people concerning the vital necessity of protecting the forests.

STRIKE OFFER TURNED DOWN

Coal Operators Refuse Plan as Too Uncertain

Miners' Idea Declared to Put No Ban on Deadlock

Conference Again Without Formal Proposition

(BY A. P. NIGHT WIRE)
PHILADELPHIA, Jan. 27.—A proposition offered by the mine workers containing a provision for a two-year contract at the old wage scale as a basis for continued negotiations to end the strike was voted down today by the anthracite operators. It was rejected on the ground that "it contains no protection for the industry, no means for preventing deadlocks or assurance against strikes."

This was the important action of the joint conference and adjournment was taken to tomorrow afternoon. The conference is once more in the position of having no formal proposition before it unless a new plan or a modification of rejected proposals is offered.

The operators also refused to increase the size of the committee by two members on each side, the miners having proposed that Samuel D. Warriner, chairman of the anthracite operators' conference, and William J. Richards, president of the Philadelphia and Reading Coal and Iron Company, one of the largest hard-coal producers in the region, be the owners' representatives.

In moving that they be made members of the committee, John L. Lewis, president of the United Mine Workers, asserted that the present operators' conference are without power to negotiate.

The two-year agreement proposed by the miners was a modification of the plan offered by E. L. Lynett, publisher of the *Scranton Times*. It provided for a readjustment of wages, and if the two sides did not agree, the old wage scale should continue.

BRIDGE WORK PLANNED

Four State Highway Trunk Lines Included in Program

(BY A. P. NIGHT WIRE)
SACRAMENTO, Jan. 27.—Plans for the building or rebuilding of four state highway trunk lines in various parts of California were announced today by R. M. Morton, state highway engineer.

Chief among the new or remodeled structures will be a bridge over the Santa Maria River, north of Santa Maria. It will be of the reinforced concrete trestle type, 1250 feet long, with a road width of twenty-four feet.

Plans also are being drawn up for the rebuilding of the Santa Ana River bridge in Orange county, the widening of the Rio Hondo bridge in Los Angeles county, and the construction of the Doney Creek bridge on the Pacific Highway in Santa county. Bids for the projects will be asked for in a few weeks.

CALIFORNIAN INJURED
(EXCLUSIVE DISPATCH)
YUMA (Ariz.), Jan. 27.—Suffering from internal injuries and a crushed chest, Leonard Farrar of Bard, Cal., near here, is in a serious condition in the Yuma Hospital, following an automobile crash on the state road in California when his touring car was struck by a light sedan driven by Rufus Kelly, also of Bard.

"CATERPILLARS" EXCLUSIVE

Only Elect May Belong to Flyers' Organization; Death Dodging Membership Requisite

BY FREDERIC J. HASKIN (EXCLUSIVE DISPATCH)

WASHINGTON, Jan. 27.—The latest addition to the Caterpillar Club is Lieut. Leonard S. Flo of the Army Air Service. In order to become a member of this club one must have made a parachute descent which saved his life. Jumping for the sheer thrill of it, or for practice, does not make one eligible for this very exclusive club.

According to available records, demonstrate a John "chute." He, after much urging, had been persuaded to carry along an army parachute, and it was well for him that he had. He made a leap at about 2000 feet. Something went wrong with the John "chute" and after falling some 1500 feet he pulled the release ring on the army "chute" and made a safe landing.

SHOWS GREAT NERVE
Lieut. Flo became a member of Caterpillars when he made a safe jump from a plane in November. It is said that he displayed in this crisis a remarkable nerve in sticking to the tradition of not jumping until he had a parachute. He, after much urging, had been persuaded to carry along an army parachute, and it was well for him that he had. He made a leap at about 2000 feet. Something went wrong with the John "chute" and after falling some 1500 feet he pulled the release ring on the army "chute" and made a safe landing.

Information has been brought forth which would indicate that a flyer named O'Connor was the first qualified member of the club. In 1920 he was making an exhibition leap at McCook Field to

What to the average person would be an outstanding harrowing experience flyers take quite calmly and as part of the day's work. An excellent example of this is Lieut. L. L. Koonce. Although apparently of a highly nervous temperament he saved his life by quick thinking and calm and judicious action in the face of almost certain death.

While flying over Bolling Field his plane went into a nose dive and refused to respond to any coercion of the pilot. Lieut. Koonce and his passenger jumped when about 1000 feet from the ground. The next day he appeared at headquarters and went about his usual affairs with no trace of having had anything more thrilling happen to him than an automobile trip around the Speedway.

TWICE ELIGIBLE
Lieut. C. A. Lindbergh might be said to be twice eligible to membership in the Caterpillar, since his life has been saved twice by parachute jumps. The first time was at Kelly Field in March, 1921, when his plane collided with that of Lieut. C. D. McAllister, while in midair. They both jumped and floated down to safety. The second time was on June 2 at Anglin, Mo.

As a part of the last Navy Day celebration at Coronado there were thirteen successful parachute jumps. One of these was unmediated, however, and according to all available evidence makes Lieut. C. A. Lindbergh's Mate Taylor, U.S.N., eligible to the Caterpillar Club. While flying about 4000 feet over Coronado, he slipped his safety belt while looping and suddenly found himself in space. He pulled the cord of his parachute and landed safely.

While its members are proud to belong to this club, and it is decidedly exclusive, it is not anxious to qualify for membership. The club has no waiting list.

CENSUS OF STATE'S BLIND UNDER WAY
(BY A. P. NIGHT WIRE)
SACRAMENTO, Jan. 27.—A census of the blind population of California is being compiled by the State Welfare Board. It was announced here today, to determine the number of cases, the causes of blindness in each case and the steps necessary to better the condition of all Californians who have lost their sight.

LIFTING OF TAX ON LABOR ASKED

Cotton and Sugar Interests Seek Mexican Help

Commission Proposed to Give Middle West Relief

Border Levy Held Too High for Working Class

(BY A. P. NIGHT WIRE)
WASHINGTON, Jan. 27.—Establishment of a commission composed of Secretaries of Interior, Commerce, Labor and Agriculture, to authorize admission of certain classes of Mexican laborers, was proposed today at a meeting attended by a number of House members and representatives of sugar and cotton interests in the Middle West, Southern and Far Western States.

It was decided to bring this proposal before the House Immigration Committee tomorrow. It was agreed that the present restrictions governing the admission of Mexican laborers must be liberalized if the industries represented are to obtain labor enough to harvest their crops.

It was explained that the head tax and other fees require expenditure of \$18 by each Mexican before he can pick cotton in the United States, a price prohibitively high for the poor classes. The proposed commission would have discretion to lift such taxes.

Twenty States were represented. Arizona and California are concerned with cotton picking. Delegates said the situation was acute, as it seemed impossible to find enough white labor to do the work of beet harvesting or cotton-picking and Mexican labor had dropped 65 per cent within the last year.

Representative Taylor, Democrat, Colorado, who presided, said the price of sugar will go up if the labor shortage not relieved.

Family's Size in California Shrinks Fast

(BY A. P. NIGHT WIRE)

SACRAMENTO, Jan. 27.—There has been a great shrinkage in the size of California families since the days of '49, if statistics of the State Department of Health count for anything.

Taking into account only the families in which there are children, the average number of children per family in California today, department officials reveal, is 2.66 as against 3.30 for the entire United States.

Accurate statistics on the child population of the pioneer period are not available, but Walter Colton, one of the first Americans to-day, department officials reveal, is a California native. Colton, after the Stars and Stripes had been raised there, wrote in August, 1849: "It is no uncommon sight to find from fourteen to eighteen children at the same table with their mother at their head. There is a few of some nifty Monterey who is the mother of twenty-two living children."

Epic of North Told on Stand in Jury Trial

(EXCLUSIVE DISPATCH)

VANCOUVER (B. C.), Jan. 27.—A terrific fight for life in the wilds of Northern British Columbia that ended in the death of Alexander Ducharme was described to a tense audience in a written statement by Frederick Cyr during his trial on a murder charge at Prince George, B. C.

Cyr was acquitted by the jury after a few minutes' deliberation. Cyr stated that when he started out to bury Ducharme he found the trapper's big dog had mounted guard over his dead master and would not let Cyr approach. Cyr was forced to shoot the dog before he could bury Ducharme.

This written tale to a tale of the Northern trapper's life in the history of the country. Among those who gave evidence were the coroner and police officers who trekked with Cyr for days back to the scene of the fight, disinterred the body and conducted a coroner's inquest by the open grave.

VEGETABLE SELLERS' NAME TRADE ASSET

MME. GASTON DOUMERGUE NO RELATION OF BACHELOR PRESIDENT

(BY CABLE AND ASSOCIATED PRESS)
PARIS, Jan. 27.—"Mrs. Gaston Doumergue" is really her name, although she is not the wife nor any relation of the President of the republic, who, a hardened bachelor is not considered likely to give any woman the right to bear his name.

The "Mrs. Doumergue" in question sells vegetables in the covered market of Carnacienne and her name, which is authentic, since she is the wife of Gaston Doumergue, is inscribed over her stall in accordance with municipal regulations. The regulations, however, do not prescribe the large and flamboyant letters she uses.

When she added a bunch of tricolor flags pinned on each side of her name, the police intervened and recommended their removal. The name alone is still quite an attraction, and many customers visit her stall to buy from "Mrs. le Presidente."

MEXICAN PACT DATA REVEALED

Conversations on Resuming Relations Disclosed

Explains Sheffield's Stand on Alien Land Law

Records Give Attitude on American Rights

(BY JACK STARR-HUNT (BY CABLE-EXCLUSIVE DISPATCH))
MEXICO CITY, Jan. 27.—Minutes of the conversations between Charles B. Warren and John Barton Payne, American commissioners, and Fernando Gonzalez Roa and Ramon Rosa, Mexican commissioners, which preceded the resumption of diplomatic relations between the United States and Mexico, throw some light on the present dispute between Foreign Minister Sams and Secretary of State Kellogg, concerning the alien land law. These minutes, guarded jealously for a considerable time, have now been referred to as a public document by the State Department, and a copy is open to inspection at the American Embassy here.

In the view of Ambassador Sheffield, the new Mexican statute is in violation of an agreement reached by the commissioners. Minister Sams has retorted that the commissioners did not reach an agreement; that their conversations amounted merely to an exchange of views; that the meetings were informal and the conversations not binding.

CLOTHED WITH POWER
That the meetings were formal and the delegates empowered to reach a mutual understanding is shown, in the view of Ambassador Sheffield, by the credentials issued by President Harding and Obregon and the statement of Mr. Warren on the first day of the meeting that he hoped that after the conferences "the two governments may resume their relations with the belief that there need be no worry about the future."

The minutes are both in Spanish and in English, and all copies were carried as correct by the four commissioners.

Much of the time of the commissioners, who sat four months, was taken up with reading into the record various Mexican laws, court decisions and constitutional provisions to show the status quo on May 1, 1917, when the new constitution, containing the famous Article XXVII, was adopted. The crux of the present controversy, it is maintained, is contained in the minutes of the meeting of August 2, 1923, which read in part as follows:

"The Mexican commissioners stated that the following are the usual consequences of the political and administrative program which the Mexican government has been carrying out, and that they state them in behalf of their government in connection with the representations relating to the rights of the citizens of the United States of America in relation to the sub-

"(1) It is the duty of the Federal executive power . . . to respect and enforce the decisions of the judicial power. . . . The executive has respected and enforced and will continue to do so the principles of the decisions of the Supreme Court of Justice in the Texas Oil Company case . . . that Paragraph IV of Article 27 . . . is not retroactive.

"(2) The government from the time these decisions of the Supreme Court were rendered has recognized and will continue to recognize the same rights for all those owners and lessees of land or subsoil or other persons entitled to the right to the oil who are in a similar situation to those who obtained 'amortized' (liquidated).

RESTRICT RIGHTS
"(3) The Mexican government has granted and grants preferential rights to all owners of oil so that whenever these owners . . . wish to use or obtain the oil in the said subsoil, the Mexican government will permit them to do so to the exclusion of any third party.

"(4) The present executive . . . will continue in the future to grant as in the past to owners of the surface . . . a preferential right to obtain oil to the exclusion of any third party.

"(5) The American commissioners have stated in behalf of their government that the government of the United States . . . reserves . . . all the rights of the citizens of the United States in respect to the subsoil under the surface of the lands in Mexico owned by citizens of the United States, or in which they have an interest in whatever form owned or held, under the laws and constitution of Mexico in force prior to the promulgation of the new constitution May 1, 1917, and under the principles of international law and equity. The Mexican commissioners while sustaining the principles hereinbefore set forth in this statement, but reserving the right of the Mexican government under its laws as to the lands in connection with which no positive act of the character specified in this statement has been performed or in relation to which no intention of the character specified in this statement has been manifested, and its rights with reference thereto under the principles of international law, state in behalf of their government that they recognize the right of the United States government to make any reservation of or in behalf of the rights of its citizens."

The "positive act" and "intention" mentioned referred to and included drilling operations, present or prospective.

It is contended the substance, manner and text of these minutes show that they were intended to constitute a binding agreement, stating the conditions on which resumption of diplomatic relations and recognition were to be based.

TANGIER BOOSTED AS MOROCCO HOLLYWOOD

(BY CABLE-EXCLUSIVE DISPATCH)
OUBRAITAN, Jan. 27.—A newspaper publicity campaign is being carried on here with the object of attracting support for the conversion of Tangier into a Moroccan Hollywood. Newly-formed producing companies are interested in developing the enterprise.

Beautiful FREE Gold and one Company

SHOPPING GUIDE TO THE NEW STORE of BARKER BROS.

FIRST FLOOR

The Foyer

BARKER BROS.' gesture of welcome to home-makers, visitors and friends. A place of beauty and of ease, this entrance was designed to express the trends that are influencing home types of this and other sections of the country and to be the meeting place where patrons may best convey their wants and wishes to members of the staff best able to care for them.

The Galeria

RUNNING THROUGH the entire building from Flower to Figueroa, the Galeria is punctuated with very decorative archways and balconies and small display windows showing arrangements of merchandise from various parts of the store.

Art and Gift Section

IN WHICH are presented unusually beautiful, interesting marbles, bronzes, Dresden pieces, fine porcelains and potteries, American and foreign glass.

Oriental Art

A SCINTILLATING section, this! Beautiful embroideries, porcelains, objets d'art, kimonos, mandarin robes and so on. All imported from the other side of the Pacific.

China and Glassware

EVERYTHING in the way of lovely China and Glassware for dainty tables. Many new and sophisticated effects in imported and American ware.

Musical Instruments

A NEW department—Orchestra and Band Instruments of known, superior makes—complete range of stringed, wood and brass instruments.

Phonographs

THE FAMOUS and finest instruments of the world, noted for tone and beautiful encasements.

Phonograph Records

EVERY RECORD any taste could desire—the sublime and classical, the modern and popular.

Radio

SETS, supplies and accessories of wanted varieties. A department very complete, very well equipped for service.

Sheet Music

ALL KINDS of Sheet Music—vocal, instrumental, popular and classic, will be found in this new department.

Music Teachers' Supplies

ALL THE needs of the profession—notebooks, metronomes and other essentials in teaching music.

Silverware

FINE Sterling designs in both hollowware and flatware. Real English Sheffield, directly imported. Highest grade plated silver in the loveliest designs to be found—both flat and hollow ware.

MEZZANINE

Art and Gift

HERE are displayed Art Novelties, Lamps and Shades, Mirrors, Candlesticks, Desk Sets, Smoking Articles, Glass and Pottery, Pictures and Frames.

Pianos

THE RENOWNED instruments of the Piano world—Grand and Upright Pianos, in period and other beautiful encasements. Also Player Pianos and Reproducing Pianos, Cabinets and Benches. Player Rolls are also in this department.

SECOND FLOOR

Ainslie Galleries

ONE of the famous Art Galleries of the world—the Ainslie Galleries of New York and Los Angeles. Exhibitions of rare interest—canvases and prints by the masters of today and former times—will be shown here continually. Announcement of changes in exhibitions will be made thru the press.

Carpets and Rugs

ALL THE kinds of floor coverings used in modern homes, hotels and apartments—Oriental Rugs, including a specially fine showing of Chinese Rugs. The best American and European Rugs. Carpets by the yard. Linoleum and Rubber Floor Tiling. Genuine antique Hooked Rugs. A special order room is a feature of this department.

Pipe Organs

A SPECTACULAR residence Pipe Organ is represented by this house and may be heard in the Studio of Interior Decoration, where it is to be installed in the very near future.

Studio of Interior Decoration

THERE is a special elevator entrance on Figueroa for the convenience of clients of the Studio of Interior Decoration. A number of rooms have been arranged and appropriately decorated for the trying out of tentative home interior schemes. These and other very up-to-date features enable the staff to execute commissions of every character.

THIRD FLOOR

Bedding—Linens

A GREATLY enlarged department with every kind of fine and every-day Linens, among them beautiful laces and imported linens. All the comforts, blankets, spreads, sheets and pillow cases to please housewives of every taste.

Children's Furniture

FURNITURE for children in just as attractive styles as the "grown-ups." Also Cribs, High Chairs, Carriages, Go-Carts, Bassinets, Folding Beds and the like.

Third Floor [continued]

DESKS, Tables, Chairs, Typewriter Desks, Filing Devices, Desk Lamps and various other equipment for efficient offices.

Photographic Studio

IN WHICH are taken the many kinds of photographs needed by the store.

Eighth Floor [continued]

Window Display Department

THE headquarters of the window display staff and their supplies.

NINTH FLOOR

Advertising

IN WHICH the store's advertising is prepared for the various media.

Contract

IN WHICH furnishings for hotels, apartments, clubs, cafes, schools, churches and theatres may be purchased. Model displays—a model lobby, apartment, hotel rooms, a chapel, and lodge furniture—are interesting features here.

Correspondence

IN WHICH is handled all the correspondence of the firm.

Employment

IN WHICH "the right person for the right place" is chosen.

Insurance

IN WHICH are handled all details of the store's insurance on merchandise, buildings, automobiles, equipment, etc.

Mail Order

IN WHICH the orders of our out-of-town customers are given attention.

Payroll

IN WHICH the remuneration for the large number of employees is handled.

Personnel

IN WHICH the welfare of all employees is cared for. Employees' library in this department.

TENTH FLOOR

Accounts

ACCOUNTS Payable by the store and Accounts Receivable by the store. Cashiers and Collection Department.

Credit Offices

AN ESPECIALLY pleasant waiting room for customers waiting to settle details of accounts. Offices very completely equipped to facilitate prompt, convenient service to customers.

Executive Offices

IN WHICH the officers and directors plan and decide upon present and future activities of the firm.

Merchandise Offices

IN WHICH all details of securing merchandise from American and foreign sources are taken care of.

Service

IN WHICH "complete satisfaction" is the usually obtained result. Checking of errors or mishaps handled by a competent staff.

Tenth Floor [continued]

Purchasing

IN WHICH supplies and equipment for every part of the store are ordered.

Traffic

IN WHICH are handled the business of delivery and transportation of every kind.

ELEVENTH FLOOR

Designing Studio

IN WHICH special designs are executed for home interiors, furniture, fabrics, and so on. A large staff of artists is kept busy at all times.

Home Advisory Bureau

IN WHICH first aid is offered for "homes to be and homes that are"—hundreds of home plans—scrap books and, most important of all, the advice of a trained expert, experienced in meeting the problems of every sort of home-making need.

Architects' Bureau

A SERVICE especially planned for architects—a means of keeping men and women of the profession informed of continually changing ideas in home equipment.

"Mary Louise" Tea Room

A BEAUTIFULLY appointed Tea Room for the convenience and enjoyment of shoppers at luncheon and tea time. An atmosphere of intimate charm and restfulness will be found here.

The Auditorium

A MOST attractively decorated Auditorium with stage, pipe organ and seating capacity for programs, lectures, concerts by clubs and groups of individuals. It will also be used by Barker Bros. for lectures, exhibits and programs.

BASEMENT

Exchange Basement

WHERE "the old helps pay for the new"—a liberal allowance for used furniture which customers may wish to apply on new merchandise anywhere in the store. An appraiser may be called without incurring any obligation.

Used Furniture

FOR EVERY ROOM—larger quarters make it possible to present the many remarkable bargains here in better guise than ever.

SUB-BASEMENT

Stock Rooms

IN WHICH merchandise for the various departments is kept until needed.

Receiving

MERCHANDISE coming in received here, thus keeping space clear above ground for delivery trucks.

COMPLETE FURNISHERS
OF SUCCESSFUL HOMES

BARKER BROS.

SEVENTH STREET,
Flower and Figueroa

FROM A FOURTEENTH CENTURY antique to the smallest and simplest of utilities for home—covering within these two extremes every possible degree of beauty, comfort, usefulness in things homes have need for—that is the service that Barker Bros. perform for Southern California in their capacity of a “Great University of Home Furnishing.” Now, in this new building with its tremendous areas of space, there is opportunity to include far more than has ever before been possible. Many things of beauty and utility that were never shown in these stocks are now presented—more kinds of those things that have had a place in displays before—rare pieces imported from far countries—and the great parade of things made in our own country—from things of art to things of utility—literally everything for home seems to find a place in these tremendous stocks. The size and the extent of the store are very significantly indicative of the pride, the interest that Southern California has in its homes. It is the demand for such service that has made possible this new store—and every part of it—every service is dedicated to the cause of making Los Angeles more worthy than ever of its name “The city of beautiful homes”.

*Barker Bros. invite their friends in Los Angeles
—their friends everywhere to visit the new store
and to avail themselves of its services.*

THREE DAYS' COUGH IS YOUR DANGER SIGNAL

Persistent coughs and colds are serious trouble. You can get them now with Creomulsion. It is a medical discovery with two-fold action: It soothes and heals the inflamed membranes and stimulates new growth.

Of all known drugs, creomulsion is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs, colds and other forms of bronchitis. Creomulsion contains cod liver oil, which is the source of the vitamin, and it is absorbed into the blood stream, reaching the seat of the trouble and stimulating the growth of the new tissue. Creomulsion is guaranteed to cure every case of persistent coughs and colds, bronchitis, and other respiratory diseases, and is a safe remedy for building up the system after colds or flu. Money refunded if any cough or cold is not cured after taking according to directions. Ask your druggist. Creomulsion Company, Atlanta, Ga.—Advertisement.

Every Woman Must Ask Herself, How Can I Remain Youthful and Attractive?

Women, permit us to say that the only lasting prescription for good looks is good health.

When you begin to feel constant fatigue, take a natural tonic, such as **DR. PIERCE'S GOLDEN MEDICAL DISCOVERY**, and a soft flush will gradually take the place of the pale cheeks, the appetite will return and health and vivacity will follow.

Ask for Trial Package and 10c for Trial Package at Women's Invalids' Hotel, New York.

HEALS ALL SKIN DISEASES

Zemo Soothes, Heals, Instant Relief

All skin troubles quickly cured with the use of Zemo. A single application brings immediate relief. Zemo is a powerful antiseptic and soothes the inflamed skin, stopping itching, burning and all skin soreness. It does not dry the skin, but keeps it moist. For daily use. For night application use Zemo. Zemo, which has the same soothing properties.

As a preservative of the skin, Zemo keeps the skin soft and moist. Every good skin cream should supply Zemo. See and buy Zemo. Advertisement.

Cold

Can be ended in a day

You can end cold and cough in a day. You can end it, even, open the bowels, and get the entire system. You can end it with the results of the cold. The only way to end it is to employ it. Don't use any other remedy. It is efficient. Don't delay. All drug stores.

BANKERS OFFER NEW SECURITIES

Two Local Issues Announced for Subscription

Mortgage Insurance Liens to Go on Market Today

Bonds of Santa Monica Bay Telephone Firm Out

New financing scheduled for today include two local offerings, an issue of \$500,000 mortgage insurance bonds and \$250,000 mortgage insurance liens to go on market today.

A syndicate composed of Blyth, Witter & Co., E. H. Rollins & Sons, Frick, Martin & Co., Mitchell, Tully & Co., and Miller, Vossberg & Co., will offer the certificates of the Mortgage Insurance Corporation, due serially July 1, 1926, to January 1, 1936, at prices to yield 6 per cent.

This marks the ninth issue of the insurance certificates, totaling \$4,500,000, which have been offered during the past eighteen months. The issue represents a participating interest in 132 first deeds of trust totaling over \$500,000 which are deposited with the trustee. Payment of principal and interest on the deposited liens is insured and guaranteed by the Mortgage Insurance Corporation, which operates under the provisions of the California Mortgage Insurance Act.

LAND SECURITY
Deposited liens are secured by improved and productive California real estate appraised at \$1,073,874, or more than twice the amount of the certificates. Under the Mortgage Insurance Act all appraisals are made by appraisers approved by both the Superintendent of Banks and the Insurance Commissioner of California.

The certificates are a legal investment for California savings banks, trust companies and insurance companies and are available as deposit with the State Treasurer to secure the faithful performance of trusts. They are exempt from California personal-property tax.

TERRITORY SERVED
The issue of Santa Monica Bay Telephone Company bonds, due September 1, 1924, will be offered by M. H. Lewis & Co., and the Citizens National Company at 102 and accrued interest to yield 5.5 per cent.

The company operates in Santa Monica, Oceanside, San Marcos, Brentwood, Rowland, Westwood, Ocean Park Heights, Playa del Rey and other territory adjacent thereto, serving with complete facilities a rapidly growing section with an estimated population of 100,000 and an area of about twenty-five miles. The company now has approximately 10,000 telephone in service, which is a gain of about 40 per cent over January, 1924.

The bonds are secured by a first and refunding mortgage on all of the property of the company with the exception of the 100,000 shares of common stock. The bonds are free from California personal-property tax and are legal investment for California savings banks.

NEW RECORD BY STANDARD OIL

Capitalization Largest Ever Handled by Trust Firm

(BY A. P. NIGHT WIRE)
NEW YORK, Jan. 27.—A certificate of incorporation of the Standard Oil Company of California with capitalization of 15,000,000 shares, no par value was filed with the Secretary of State of Delaware by the Corporation Trust Company of America.

Through the Los Angeles office of the Corporation Trust Company, the statement was made yesterday that the new Standard Oil capitalization is the largest ever handled by its organization. The organization tax alone, payable to the State of Delaware, totaled \$75,100, probably the largest single organization tax ever paid into the treasury of that State.

The Clearinghouse

News of Spring Street

In compliance to John T. Cooper, vice-president of the Security Trust and Savings Bank, who will depart Saturday with Mrs. Cooper and their three children for a six months' pleasure and educational tour of Europe, the principal officers of the head office of the Security Trust and Savings Bank, who operate under the provisions of the California Mortgage Insurance Act, are making a legal investment for California savings banks, trust companies and insurance companies and are available as deposit with the State Treasurer to secure the faithful performance of trusts. They are exempt from California personal-property tax.

The certificates are a legal investment for California savings banks, trust companies and insurance companies and are available as deposit with the State Treasurer to secure the faithful performance of trusts. They are exempt from California personal-property tax.

To Address Northern Realtors
Carrying an account of the educational achievements of the California Real Estate Association and the University of Southern California to Northern California real estate boards, Harrison Lewis, vice-president of the California Real Estate Association and chairman of the State education council, will address the Stockton real-estate class of February 1, and subsequently will meet with the Oakland, Sacramento and San Francisco real-estate boards.

Bankers Leave for East
Frank B. Badgley and Wallace A. Marshall of the Los Angeles office of E. H. Rollins & Sons, left yesterday for three weeks' tour of the eastern financial centers. Their trip will include a sales conference at the company's home office in Boston and New York, Chicago, Philadelphia and other cities will be visited on their return.

Sales of Life Insurance Hit Record in 1925

The amount of ordinary life insurance purchased in the United States in 1925 was well ahead of any previous year, according to a report just issued by the Life Insurance Sales Research Bureau of Hartford, Ct. During 1925, \$2,067,434,000 of new business was developed, or 11.9 per cent more than in 1924. The report shows that the legal reserve ordinary life insurance in the United States, this is an increase of \$2,449,000 over total sales of 1924, or a gain of 14 per cent.

December sales totaled \$404,624,000, the highest record ever made, and was the first time that sales ever exceeded the \$400,000,000 mark in a single month. Every section of the country showed an increase in sales in 1925 over 1924. The largest increase was made in the South Atlantic States. Gains in nine different geographical sections varied from 5 to 25 per cent. Practically every State showed an increase in December.

Trend of Pig-Iron Output Charted

Production Below Normal in 1925

Although increased production of pig iron in the early part of 1925 forced totals above the normal line, the reaction later left the industry below normal most of the year.

STEEL AND IRON SALES HOLDING UP

General Situation Seen as Satisfactory; Higher Prices Not Expected

(EXCLUSIVE DISPATCH)
CLEVELAND, Jan. 27.—Shipments of iron and steel are keeping at a high rate, representing the strong foundation of the market, says Iron Trade Review. New business is developing more slowly than was the case a few weeks back, but the market is well covered by buyers. They are content in discounting future needs, which present prospects indicate will be heavy.

The general conviction is that higher prices are not probable soon. An important factor in developments this week appears to be the coal strike. One Pittsburgh steel works blast furnace has gone out, with this cause assigned. One Mahoning Valley merchant stock has been banked. Two other furnaces have been banked in the Pittsburgh district to release coke for the attractive general market. Another is slated to go out in a few days for the same reason.

The question of sheet mill wages is receiving the attention of producers. One large maker may increase the rate of men 10 per cent in the near future. If this comes general, it promises to complicate the mill's relations with tonnage men in view of backhanded sheet prices. Efforts of the automobile industry to break the 4.50¢ price on full finished sheets have produced no tangible results yet.

Unusual demands stand out in several products. Tin plate contracts for February and March and mills are working on full capacity. At Pittsburgh report January the best month in three or four years. The Iron Trade Review compares of fourteen leading iron and steel products this week is \$40.61, compared with \$39.15 a week ago and \$39.24 a month ago.

OFFICIAL FIGURES OF LOCAL BANKS GIVEN

DEPOSITS, RESOURCES, CAPITAL AND UNDIVIDED PROFIT—
THEY SHOW BIG GAIN

Total deposits in banks within the city limits of Los Angeles on the 1st inst., amounted to \$92,989,180.38, as compared with \$92,152,357.53 on January 1, 1925, an increase of \$836,822.85, according to the authorized statement compiled by the Los Angeles Clearinghouse Association. The grand total of deposits in all banks of the city, including deposits in branches outside the city, on the 1st inst., was \$1,049,175,110.73, an increase of \$11,617,576 over the total on January 1, 1925.

Of the total deposits, \$58,929,317.58 represented savings deposits, which compares with \$44,424,747.73 in savings deposits a year ago. Total loans and investments of the 1st inst. amounted to \$89,992,696.53. The total capital of all of the Los Angeles banks is given as \$45,686,050, and surplus and undivided profits as \$35,958,905.61. Total resources aggregate \$1,139,518,251.92.

Reserves paid to stockholders by the banks of Los Angeles in the six months ending December 31, last, aggregated \$2,449,199.95, and interest paid to depositors in that period amounted to \$10,564,155.62. There was a slight decrease in amount of dividends paid in the six months as compared with the total for the previous six months, but total interest paid to depositors was \$1,015,415.76 greater than in the previous six months.

TEXAS VALUES HIGHER

(EXCLUSIVE DISPATCH)
AUSTIN (Tex.) Jan. 27.—It is shown by the tax rolls of the several counties of Texas which have just been filed in the State Comptroller's department, that the total assessed value of property in the State for 1925 is \$3,602,217,882 as compared with \$3,419,081,814 for 1924.

COAST INDUSTRIALS ARRIVE

Recent Financing Reflects Progress of Pacific Slope Companies; More Issues May Follow

(BY EARLE E. CROWE)
Industrial stocks on the Pacific Coast are just beginning to command a wide investment recognition. To the large circle of friends attached to California Packing, the old-line leader of the Pacific Coast Industrials, the list of industrial stockholders has lately been increased through the public financing of Caterpillar Tractor, Crown Willemette Paper and Zellerbach Paper. For years the three last-named companies have been virtually privately owned, but now their businesses have progressed to the point where a large public interest is desirable and practicable.

The delay in the investment recognition of the Pacific Coast Industrials is not surprising. Oil stocks have won national attention, not as a result of economic growth on the Pacific Slope, but merely in reflection of fortuitous underground discoveries. Public-utility companies have met with similar recognition simply because they supply necessary services. Industrial development, however, is a slow process, and does not come until the market for manufactured goods is strong enough to support sound enterprises.

RECORDS ATTRACT
Until this point has been reached and thoroughly proven, the pioneering is done by private capital. This has been the status of Pacific Coast Industrials until recently. The records of successful operations over a long period of years and the condition of the investment market, however, combined to attract the attention of the public to these companies, and the public financing followed. Apparently, the reception of the securities has been entirely favorable.

Security buyers on this Coast must, nevertheless, learn to appreciate the value of these new industrial securities. While not seasoned marketwise, they represent an interest in companies of sound standing, which should share in the inevitable economic growth of the Pacific Slope. Where the management have demonstrated their ability to handle the business of this type should perform creditably in the market, and increase the value of their securities. Stocks on the Pacific Coast stock exchanges.

Since many of the industrial issues are of the "fixed income" type, the classification, the flotation of this kind of financing may be expected to increase. If the bull market in common stocks wanes in the next few months, preferred stocks appealing to the investment-buyer looking for a fixed income-bearing security, and are always popular when commodity prices are low and declining. Whether this will be the trend of commodity prices in the next eleven months remains to be seen, but in the matter of interest rates, it is probable that the fixed income securities will have the advantage. The forecasts generally are for low rates.

MARKET IGNORED

The Caterpillar Tractor, Crown Willemette Paper and Zellerbach Paper have shown the way. Others will follow as the natural result of favorable market conditions and the need for larger capital expansion. Probably some of them will be ill advised and demand for a fixed income-bearing security, but in the long run, the investment market on the Pacific Coast will materially benefit from the addition of the social industrial. Here in Los Angeles, the market for industrials other than oil and paper is slow, probably as the result of one or two costly experiences in the past, but that condition is capable of improvement.

Probably one reason for the unsatisfactory volume of trading in industrials here is the attitude of the brokers. Industrial listings on the Los Angeles Stock Exchange are given very little attention. Nearly all of the speculative activity in the speculative market is and are not greatly concerned with the development of industrial trading. The Los Angeles market is slow, but a few specialists might remedy this state of affairs.

Berthing Spaces Given Several Shipping Firms

Williams, Dimond & Co. yesterday were granted a berthing assignment by action of the Harbor Commission on the lower floor of the new dock and shed recently completed at Berth 230-D in the Terminal Island section of the local harbor.

The concern is one of the largest steamship agencies operating in the local port and handles the inter-coastal ships of the Quaker Line, the Oriental and South American trade of the Oakes Shown Kalsha Line and the Mexican commerce of the Mexican Steamship Line.

The Los Angeles Dispatch Line, which operates the steamer Newport in the coastwise passenger and freight service, was granted a berthing assignment at Berth 96 in the San Pedro section of the harbor.

GAS STOCKS CALLED FOR REDEMPTION

Southern Counties to Retire Old Issue and Substitute New

Redemption of all of its issued and outstanding 5 per cent capital stock at \$102 a share, plus the amount of all cumulative and accrued dividends unpaid thereon, will be made by the Southern Counties Gas Company of California on April 1, next, according to announcement yesterday through Bond & Goodwin & Tucker, Inc. Payment will be made upon presentation and surrender of certificates at the office of the secretary in the Los Angeles Gas and Electric Corporation Building.

Subject to the approval of the State Railroad Commission, the company also proposes to issue to such holders of the 5 per cent preferred stock as may desire to make an exchange, one share of its 7 per cent preferred capital stock for each share of the 5 per cent stock, at the rate or price of \$102 per share. The right to exchange on this basis will expire May 1, 1926.

This action is in line with the policy of the company to keep its interest obligations adjusted as closely as practicable to the trend of the financial market.

Metropolitan Trust Company, Trustee

EXEMPT FROM CALIFORNIA PERSONAL PROPERTY TAX

LEGAL INVESTMENT FOR CALIFORNIA SAVINGS BANKS, TRUST COMPANIES AND INSURANCE COMPANIES

AVAILABLE AS DEPOSIT WITH STATE TREASURER TO SECURE FAITHFUL PERFORMANCE OF TRUSTS

President H. H. Braly summarizes from his letter to us as follows:

COMPANY: The Mortgage Insurance Corporation is incorporated under the laws of the State of California and operates under the provisions of the California Mortgage Insurance Act, which authorizes the issuance of these Insured First Mortgage Certificates. As required by law, the Company has a paid-up capital of \$250,000 and in addition a paid-up surplus of \$50,000. Operations are under the close supervision of the State Insurance Commissioner.

CERTIFICATES: These Certificates represent a participating interest in 132 first deeds of trust totaling over \$500,000, which are deposited with the Trustee. These liens are secured by improved and productive California real estate, appraised at \$1,073,874, or more than twice the amount of these Certificates. Under the Mortgage Insurance Act, all appraisals are made by appraisers approved by both the Superintendent of Banks and the Insurance Commissioner of California.

Principal and interest requirements on these Certificates will be met through the payment to the Trustee of principal and interest on the deposited liens in monthly installments over a ten-year period. In event any of the deposited liens are paid off before maturity, the corporation must immediately deposit other first deeds of trust having a similar or greater principal amount unpaid and bearing the same or higher rate of interest.

MORTGAGE INSURANCE: Every deposited deed of trust is accompanied by a policy of mortgage insurance insuring the payment of principal and interest thereon. In addition, the Company, in the trust agreement, guarantees that sufficient money will be paid to the Trustee to meet both principal and interest requirements on the Certificates as due. Adequate fire insurance policies covering all mortgaged property are deposited with the Trustee.

MANAGEMENT: Affairs of the Corporation are under the able management of the following officers and directors who have had many years' local experience in real estate, construction, insurance and banking: President, H. H. Braly; Executive Vice-President, Chas. E. Hopper; Vice-President, Arthur H. Braly; Secretary, F. S. Hollister; Directors: J. A. Javal, Harold L. Arnold, T. W. Hendrick, Shepard Mitchell.

SCHEDULE OF MATURITIES

deeds of trust having a similar rate of interest.

ADVANCE: Every deposited dollar is insured by the Fidelity and Guaranty Insurance Company, in the trust agreement, to meet both principal and interest on the policies covering all mortgages.

The officers of the Corporation are: President, H. W. Hendrick; Vice-Presidents, H. W. Hendrick and Arthur H. Braly; Secretary, H. W. Hendrick; Treasurer, H. W. Hendrick; and Directors, H. W. Hendrick, Arthur H. Braly, H. W. Hendrick

Price 100 and interest to yield 6%

All legal matters pertaining to the issue of these certificates are subject to the approving legal opinion of Messrs. Clegg, Dunn & Crutcher for the Underwriters and of Messrs. Mitchell, Silberberg & Davis for the Company

MAIL STORE IN REALTY DEAL

Montgomery-Ward Adds to Present Holdings at Oakland

(BY A. P. NIGHT WIRE)
CHICAGO, Jan. 27.—A comprehensive program for expanding the Pacific Coast trade of Montgomery-Ward & Co. was indicated today by the purchase of seven and one-half acres of land at Oakland, Cal., from the Magnavox Corporation. This brings Ward's holdings in Oakland to eleven acres, which, it is expected, will be used to provide additional mail-order facilities.

Stock Exchange Takes Notice of Modern Policy

(BY A. P. NIGHT WIRE)

NEW YORK, Jan. 27.—Steps to scrutinize the issuance by corporations of common shares without voting power were taken by the New York Stock Exchange today through its committee on stock list, which announced that hereafter in considering applications for listing securities it would give careful thought to the matter of voting control.

The following statement was issued with the approval and endorsement of the governing committee of the exchange: "The committee on stock list has for some weeks had under consideration certain tendencies in modern corporate organization which the committee considers it should take cognizance of."

One of these tendencies has to do with the creation of two classes of common stock between which the only substantial difference lies in the fact that the one class votes while the other class does not. Without at this time attempting to formulate a definite policy, attention should be drawn to the fact that in the future, the committee in considering applications for the listing of securities will give careful thought to the matter of voting control."

BOND QUOTATIONS

Upturn Renewed

(BY A. P. NIGHT WIRE)

NEW YORK, Jan. 27.—Undisturbed by the competition from

offerings, the bond market continued its upward course without interruption today. Buying orders were well distributed throughout the list, lifting a number of high-grade utilities and semispeculative

railroad issues to new high levels for the year. The day's turnover approximated \$15,000,000, the largest so far this year.

Traction issues replaced power and light bonds in the leadership of the public-utility group. Interborough obligations, having recovered from the recent scare over the company's financial difficulties, were aided further by a favorable earnings statement.

Investors seeking power and light bonds found an outlet for their funds in the \$25,000,000 Lehigh Valley Securities and \$15,000,000 Commonwealth Edison offerings, both quickly oversubscribed. Of the listed issues, Brooklyn Union Gas 5 1/2s made the best showing, advancing 1 3/4 points to a new peak at 125.

High-grade railroad liens failed to attract buyers as readily as those issues with convertible or other speculative features. Thus Atchafalaya general 4s, Baltimore and Ohio 4s, Southern Railway 6 1/2s and Pennsylvania 6 1/2s closed lower, while Chesapeake and Ohio convertible 5s, Delaware and Hudson 5s and Southern income 5s, scored moderate gains.

Foreign and United States government obligations were steady. German 7s reached a new high record at 102 3/8 and Australian 5s were fractionally higher in unusually active trading.

Following are yesterday's high, low and closing prices of bonds on the New York Stock Exchange and the total value of each issue.

FUNERAL NOTICE

THE FIVE LITTLE PARROTS

Voicing inferential contempt for the disinterested verdicts of the Interstate Commerce Commission, the California Railroad Commission, the city engineering department, their own engineering experts and a score of the greatest traffic authorities of the United States, the members of the city Board of Public Utilities have "found impractical" the plan endorsed by all these experts for a Los Angeles union railway terminal at the Plaza site and have recommended to the city that it dismiss its ten-year fight, now all but won, for that great project.

Not since the famous manifesto of the seven tailors of Tooley street, which began "We, the people of London . . . has there been a greater piece of public effrontery.

The resolution of the Utilities Board declares as a basis for its conclusion that "the Board of Public Utilities and Transportation has made a comprehensive study and investigation of transportation and traffic conditions as they exist in the vicinity of the Plaza site."

There is no record of such an investigation at the office of the board. No order was made to the board's costly and expert engineering department to make such an investigation.

The head of that department said the resolution was a complete surprise to him. He was not even present when it was passed. He had made no investigation and no report on the union-terminal project. He had not been asked to do so.

Within an hour after the resolution was passed—by unanimous vote and without any discussion whatever—members of the board admitted that the board had made no investigation, but that "members investigated individually."

Who are these individual members whose personal investigation of a complex transportation problem qualifies them off-hand to reject as worthless the long-considered findings of the country's foremost traffic experts and official railroad regulatory bodies?

Commissioner I. W. Camp, who wrote the resolution, is an automobile dealer. He has been a member of the Board of Public Utilities less than a year.

Commissioner Laura Locke, who seconded the resolution, is a physician. She has been a member of the board less than a year.

Commissioner Philip R. Johnson is a real estate man. He has been a member of the board about two years.

Commissioner H. G. Haffer publishes a grocer's trade paper. He has been a member less than a year.

Commissioner Thomas H. Walsh is a druggist. He has been a member less than a year.

Such are the "experts" who have thus discarded, with an airy wave of the hand, the results of ten years of hard work by their predecessors in office, by their own engineers and by those of the city, the State Railroad Commission, the Interstate Commerce Commission and several independent commissions of engineering experts.

These are the "authorities" which now recommend to the city that it dismiss the action—at the stage of ultimate victory—which has cost the city to date not less than \$100,000 and which from the beginning has been under the personal direction of the City Attorney.

The Department of Public Utilities costs the city \$50,000 a year. Of this the bulk is for engineering work—for expert advice upon which the nonexpert members of the board are supposed to act.

Why did not the Board of Public Utilities have its engineering department conduct an official investigation and predicate its finding upon the report of its own experts?

The answer is obvious. The board knew that no such findings could follow such an investigation and report. The board knew that every utilities board for the past ten years has, after real investigations, fought for the union terminal at the Plaza, that H. Z. Osborne, chief engineer for the board preceding, was for years in the forefront of the city's terminal war, that the Utilities Board of 1919 adopted as its platform the report of Richard Sachse, chief engineer for the State Railroad Commission, urging a union terminal at the Plaza.

The members of the board, in their pitifully wriggling efforts to explain their action, say that "conditions are different now than they were when the Plaza site was approved."

It has been a scant six months since the Interstate Commerce Commission, court of last resort and the country's highest transportation authority, affirmed the findings of the State Railroad Commission, after an exhaustive review of the voluminous record of expert testimony in the case.

How has the situation changed in six months to a degree to justify the scrapping of ten years of costly endeavor?

There was no discussion whatever of Mr. Camp's resolution. It was introduced, seconded and passed in one, two, three, four.

Obviously it was arranged in advance—programmed to suit a cut-and-dried policy. The action of this Parrot-controlled board is merely the first of a series of similar actions on the part of the Parrot-controlled administration to jam through the railroads "roller-coaster" plan for miles of elevated railways on the downtown streets as a substitute for a union terminal.

The next act will be to try to jam through the Council the forty-year franchises sought by the railroads for their elevated roads.

After that the approval of the State Railroad Commission will be sought for the new program on the ground that the city has abandoned its ten-year fight for a union terminal.

The understanding arrived at between the railroads and Boss Parrot whereby the "administration" is to throw its program overboard to support the railroads' plan is one that bodes no good for Los Angeles. It is a sinister coalition that marks the re-entry of the railroads into politics.

Will the Council and the people permit it?

URGES STATES CO-OPERATION

Unity of Interests Stressed by Utah Governor

Other Executives Invited to Address Chamber

Necessity for Interchange of Commodities Cited

Such co-operation between Southern California and Utah as will expand the markets, increase the prosperity and further the development of both sections was the subject of discussion at a luncheon meeting given by the Chamber of Commerce in honor of Governor Dorn of Utah.

The meeting was the result of invitations extended by the local chamber to the Governors of all the eleven Western States to come to Los Angeles to discuss arrangements with chamber officials and industrial leaders for the establishment of closer reciprocal relations between Southern California and these various States.

Gov. Dorn stressed especially the community of interest of California and what he called the intermountain country, including the States of Utah, parts of Idaho, Wyoming and Colorado.

"What affects one part of this intermountain section affects it all," he said.

"So far as Utah is concerned, the resources of our State are, we think, indispensable to you and hence you need us as badly as we need you. You need our foodstuffs to feed your growing population and we need your manufactured products. You will develop into a great industrial center and for the raw material for your industries you will need to draw upon the diversified natural resources with which nature has so richly endowed our State."

"Utah is a producing territory and her greatest need is a satisfactory market for her products. We are, of course, her nearest center of population that the high freight rates shut us out of that market."

"The exchange of commodities between Utah and Southern California has already assumed important proportions. Gov. Dorn said, shipments from Utah into California last year amounting to \$71,442 tons and from Southern California to Utah, 14,857 tons. He added that Los Angeles capitalists are already actively engaged in Utah in oil and iron ore development, but that the mineral resources of the State are so vast that there is room for large investments."

At the close of his address, the speaker turned to the audience and urged the Utah projects in relation to which he said he had been twice called to Washington recently to appear before the Senate Committee on Irrigation and Reclamation.

"At these hearings I was forced to oppose the position taken by Southern California," he said, "not because Utah is not in sympathy with Southern California, but because, as matters stood at the time I was called before the committee, the rights of the upper basin States were not, in my judgment, properly safeguarded. When an agreement is finally reached by which those rights are established, Utah will gladly support Southern California in hastening the proposed Colorado River project."

Mr. Bristol dwelt especially on the desirability of the extension of Los Angeles business into Utah. "We buy large quantities of merchandise in the East, but we would prefer to buy in the West, if possible," he said.

"There is a large field in our State for many commodities produced in Los Angeles, and on the other hand, you present an excellent market for many of our products. The sooner we play the game together the greater will be the benefits to all concerned."

CITIES RESOURCES

In his brief talk, Mr. Farrell called attention to the vast natural resources of Utah, where he was.

STRANGLER BY RED TAPE

How It Chokes Out Courtesy at Public Utility Company Offices; Few Exceptions

BY THE POLITENESS REPORTER

Red tape. Miles and miles of it; leagues and leagues of it; red tape by the tons and the carloads. Thousands of employees surrounded by it wrapped up in it, smothered by it, immersed and submerged and entrapped in it.

Red tape that wastes thousands of valuable hours every day; hours of the workers who struggle with it and hours of the public victimized by it.

The Politeness Reporter has been visiting the offices of our public utilities; he has been having the experiences of everyone who has ever tried to find out what it's all about and why. And you, who could write this story just as well as I, arrived at the same place as the reporter nowhere.

Once there was a traffic policeman on a busy corner on North Broadway. Police men are more or less alike; and surely in no other branch of public service can there be such an inviting condition—in the matter of hours and hours of work and its financial returns—than in the police department.

But this policeman practiced smiling and courtesy on his corner instead of growling and bawling out. The next Christmas there were two truckloads of gifts voluntarily delivered to him by grateful motorists. Then he was transferred to another corner downtown. Now he's a sergeant—because he smiled.

Our Municipal Bureau of Power and Light is located at 238 South Broadway. The reporter knows because in the hours he spent in waiting for one thing or another down there he not only had the opportunity of memorizing the number of the building, but even the names of the elevator operators.

SEEKING LIGHT

The first thing the reporter did was to file an application for a number in line at the window where the reporter arrived—and it wasn't the busiest time of day. The clerk on duty was moving as fast as he could, but the impatience of the customers at being made to stand around had plainly communicated itself to him.

"Whaddya want—light or water?" was his first question. "Light—my name is—"

"Never mind your name—what's your address?"

"When can I have the light turned on?" the reporter asked.

"Wait a minute—when they get around to it, I guess."

Across the alley another line was waiting. The man ahead of the reporter asked for a counter bill for his light charge and reported that he likewise. Same reception as before—except that the P. R. had to wait.

"You'll have to come back tomorrow," the reporter took the bill to a waiting space marked adjustments.

"My bill's too high—who do I see?"

"Sit down! I'll let you see some one in a minute!" was the gruff reply. The reporter patiently waited for exactly seventeen minutes and was taken to a gray-haired man who did his best for him.

But that was not the end. Half a dozen books were consulted; the records of meter readings were found and read; and finally:

"You'll have to come back tomorrow!"

AT PRIVATE OFFICES

At the private corporation of offices somewhat the same atmosphere—with a factor of intensive efficiency added—prevailed. No consideration apparently is given to the public's time, but much to the private expense.

"I want to sign up for gas at my mother's house," said the reporter at the "applications desk" of the gas company.

"She owns the house?" was the reply.

"Bills to be made out in her name?"

"Yes."

"Can't do it—she'll have to sign up!"

"But she's an invalid—she can't come out!"

"Can't help that—no one can sign up for another person!"

"Do you mean that an invalid can't get gas in their home?"

"Less they hire an ambulance and come down here and sign your 'blame card'!"

"Rules, rules, brother! An invalid can't get gas!"

BURBANK GETS COSTLY STUDIO

First National Chooses Site for Huge Edifice

Film Company Will Expend \$1,500,000 on Plant

Building Expected to Start Within Short Time

Burbank definitely was selected yesterday as the location of the new studios of First National Pictures, Inc., according to word received from Richard A. Rowland, general manager, by John McCormick, in charge of west coast production, giving the decision of the executive committee regarding the purchase of land. The studios will involve the expenditure of about \$1,500,000.

The site chosen is a tract of property known on relief maps as the Providencia Rancho and Scott tract, subdivided into six lots, sixty-four acres and is bounded on the south by the Los Angeles River and on the west by Paseo Avenue and the Lakewood golf course. On the north of the property lies Aliso Avenue and the east is undeveloped property.

LARGE EXPENDITURE

Also a avenue runs directly through the property and leaves the main piece an area of some fifty acres with fourteen acres directly across the street.

The realty transaction was negotiated between the First National Pictures, Inc., and A. V. Handorf, vice-president of the Los Angeles Creamery Company, with large holdings in the territory.

"The studio transaction," said McCormick, "will involve the expenditure of \$1,500,000. The buildings will be erected in a most decorative manner and will be along Colonial, Spanish or Moorish lines, depending on the land settings and on the suggestions of the architects. Bids are being received and no delay will be made in actual building. Many firms are now drawing tentative plans, among them being the John C. Austin Company, the Milwaukee Building Company, Stephen Goodman and Union Iron Works. Actual construction will be started immediately after a bid is accepted."

BUILDING SOON

According to McCormick, the studio construction will be entirely in the hands of C. P. Butler, an officer of First National.

It is expected that actual building will start by the first of the month. First National is at present occupying the greater portion of United Studios, which recently were sold to the Famous Players-Lasky Corporation.

"We aim," said Butler, "to have the best equipped studios in the world. The building plan is large and the studios will be something like the old studios at Hollywood. We plan to spare no expense in creating the most beautiful studio ever created and landscape architects will create ground designs surrounding the plant that will make it a show place."

TRADUCERS OF PATRIOT EXCORIATED

Critics of Washington Get Rebuke at Junior High School Exercises

Declaring that traducers of the reputation of George Washington are untruthful and unpatriotic, Reynold E. Blight, in an address yesterday afternoon at the commencement exercises of the John Adams Junior High School, held up the father of his country as a hero and an ideal.

"No matter what these belated critics may say, the memory of Washington is enshrined in the hearts of the American people," he said. "While we do not believe Washington was a saint, nevertheless we will hold him in reverence as a man of disinterested patriotism and unblemished integrity and shall hold him as an example that the youth of our land may well emulate."

"Washington was a true man, and while, like all men, he had his shortcomings, he would have been the last to deny, he presents a character noble, clear and virginal, and we honor ourselves in rendering homage to his memory. It will be a sad day for our nation when we cease to admire these sterling qualities so splendidly exemplified in his life."

One hundred and thirty-eight pupils graduated from the junior high school, virtually all of whom are going on to high school. The diplomas were presented by Principal Ayers.

CELEBRITIES LECTURE TOPIC

Capt. Lloyd Morris will give a lecture on "Celebrities I Have Met" at noon today before the Proximo Club at the Westlake Park pavilion.

(Continued on Page 2, Column 5)

AIR SHADOWS FOR RUM ROW

Two Seaplanes and Two Destroyers Coming From East to Reinforce Coast Guard Fleet

Two seaplanes and two destroyers are coming to Los Angeles Harbor to assign the port's fleet of Coast Guard cutters in hunting out the fleet of rum runners now operating off the coast, it was announced yesterday by Commander L. C. Covell, commanding the cutter Bear and the Coast Guard fleet in this area.

The two planes are now en route here from the east coast, Commander Covell said, adding that the destroyers also would soon depart for this station from Atlantic waters. The destroyers are two of the ten recently commissioned by the Coast Guard Service after having been turned

(Continued on Page 2, Column 2)

The Lancer

by Harry Carr

I CAN imagine nothing more inhuman, more demagogically cruel, barbarous or relentless than what happened in Washington day before yesterday.

They murdered Senator Reed of Missouri. Passed a temporary cloture rule which, for the time being, at least, cut off his ransom.

His sarcastic tongue is the nearest thing to perpetual motion that nature thus far has permitted to defy her laws.

He has denounced everything, living or dead; and has pretty well used up all the words there are—not to mention all the wind.

Even though it may not last, the silence is sweet.

THE PERFECT "SNOOKY"

It is comforting to know that the University of California has produced three perfect men.

Nevertheless, we shall have to admit it to be a shock that one of them answers to the name of "Snoopy"—for short, as it were.

Butshaw! for all I know some of these Greek-study lads might have been "Snoopy" to their friends. Still, it is a shock.

"MAJOR BARBARA"

One of the most interesting theatrical performances I have seen for a long time is "Shaw's Major Barbara" at the Pasadena Community Playhouse.

It is a charming theater—all California in type—and the productions by seasoned amateurs are exceptional. Especially this one.

I don't know why Shaw is steered away from as too "high-brow." He isn't highbrow. He is stingy, witty and tremendous.

The only difficulty is that his plays require unusually skillful stage direction and intelligent actors.

A COTER-PROOF

A few Shaw plays, like "The Devil's Disciple" and "The Man of Destiny," are more or less coter-proof; but plays like "Major Barbara" and "Captain Brassbound's Conversion" are undeniably "talky."

But what talk! It glitters and splutters and sizzles.

SITUATIONS

Personally, I think the greatest days the theater has ever known are coming.

The old machine-made "situations" are being thrown into the discard, where they belong. The new dramas will all be more or less talky. Even "What Price Glory" is talky. But talk with 1000 pounds pressure behind the words.

The movies have helped the new drama. They have forced actors to cut out the rant. Nobody has the nerve to overact in a movie close-up where the faces are magnified until every line and wrinkle looks like a paved boulevard.

NO ADVICE WANTED

Basel King, the novelist, is a gentleman of heroic determination. In an interview he declares that he never either gives or takes advice.

But of course he does, at that. He wrote a book called "The Conquest of Fear," which is several hundred pages of the best advice I have ever read.

LIVING IN FEAR

Needed, too. Our modern civilization is in the horrid clutch of fear. Fear.

GRAND JURY TO GET FRONK DATA

Details of Escape Will be Repeated by Chauffeur

Had Little Cash as He Went North and Then East

Now Believed Hiding in Southern Florida

How J. K. Fronk, accused \$287,400 bank swindler, made his way the length of the Pacific Coast and then leisurely journeyed eastward while the detective strength of three nations was looking for him, is scheduled to be heard by the Country Grand Jury today from Charles Campbell, chauffeur who drove Fronk to Red Bluff and then accompanied him to Seattle and Portland.

Clayton R. Taylor, foreman of the inquisitorial body, stated last night that Campbell is to be called, for a week, or more, Campbell has been assisting deputy sheriffs in an attempt to capture the fugitive swindler, but without success.

HAS LITTLE MONEY
One of the things the Grand Jury is destined to hear is Fronk's possession of only about \$100 in currency and about \$4000 worth of negotiable jewelry when he left Los Angeles, although he is thought to have had nearly \$200,000 with him.

Campbell is expected to repeat the story he told Chief Deputy Sheriff Wright several days ago. In substance, the tale is that Fronk summoned the chauffeur New Year's eve and told him to drive north. They were arrested for speeding in Tulsa City, where Fronk gave his right name, was fined and released. At Red Bluff, she car was deserted and the two continued to Seattle, where they registered as George K. Miriam and son. It was not until they reached Portland the next day, Campbell said, that he learned Fronk was the possessor of a criminal gully conscience. Fronk confided to him, Campbell told of, that he was \$10,000 behind in his accounts and had to get out until things settled down.

THOUGHT IN FLORIDA
Fronk, after giving Campbell \$200 to return to Los Angeles, left for Chicago, leaving word for Campbell to meet him at the Morrison Hotel. Fronk went to Chicago, officers say, but learned there he was being shadowed and fled. It is now thought that he is in Florida, as he is said to suffer from a chronic ailment which is least virulent in warm climates.

It developed yesterday that Fronk at one time was a publicity man for Frederick Cook, polar explorer now in Leavenworth Federal penitentiary for all swindles. The sheriff's office revealed, Deputy Sheriff Frank Dewar, armed with Fronk's address book, left yesterday for Fresno, and the Sacramento Valley to interview persons whose names were found in the book in the hope that some clue to his present whereabouts may be disclosed.

MISSING PROMOTER
ADJUDGED BANKRUPT
While deputy sheriffs were engaged yesterday in the merry game of picking out places on the map where J. K. Fronk, absentee master check kiter, ought to be, Federal Judge James, with one fell swoop, put him out of business. Judge James adjudged him bankrupt and gave him ten days in which to file a schedule of assets and liabilities. The judgment came as a creditor's bankruptcy petition filed against the J. K. Fronk Finance Company and the Western Automobile Company. E. A. Lynch and W. H. Biddle were appointed receivers. The case was referred to Bankruptcy Referee Allen.

RUSH ACT FAILS
IN THE COUNCIL
(Continued from First Page)
was waiting in the corridor of the City Hall to learn the reception which his anti-Plan union-depot resolution received at the hands of

REVEALS ASSERTED SWINDLER'S ROUTE

Charles Campbell

the Council. He appeared much disappointed at the remarks of the action on the resolution.

"I wrote the resolution adopted by the board," said Commissioner Camp, who is a young Hollywood automobile dealer.

"Is the city administration in favor of the board's action?" Camp was asked.

"I suppose so," said Camp. "from what administration men have said to me about the matter."

Later in the conversation, Camp volunteered this:

"I did not talk over the resolution of the board with Mayor Cryer before I presented it, nor since. Asked as to the extent of the board's 'comprehensive investigation' of the terminal problem, set forth in the resolution, Commissioner Camp said:

"The board members had been investigating this matter for a long time. We consulted Chief Engineer Marsh about the transportation situation and had read the records of the history of the matter. Our conclusions are our own. Conditions have changed, the city has grown away from the Plaza location as a site for a union passenger depot, in my opinion."

Dr. Laura M. Locke, who seconded Camp's motion before the board that it adopt his antidot resolution, attended one of the hearings of the Railroad Commission on the terminal problem held in Los Angeles during January. She sat directly behind Vice-President Pontius of the Pacific Electric Railway, who is the railroad's chief platform exponent of the railroads' chain of elevated and foot bridges as a substitute for a union depot, and Dr. Locke confided with him frequently during the hearing.

PLANES TO SPY
ON RUM FLEET
(Continued from First Page)

cola for the Coast Guard's new air squadrons.

It is planned to use the planes for spotting the rum ships, lying outside the twelve-mile limit, and then radioing to the surface ships when small craft, plying between the rum ships and shore, put off with cargoes. The destroyers, with a speed of thirty-five knots, and co-operating with the two squadrons of fast motor chasers are expected to greatly curtail the importing of contraband.

Radio sets for the motor chasers based on Los Angeles Harbor have arrived and will be installed immediately, thus materially increasing the efficiency of these craft. Commander Covell also announced that he expects confirmation daily from Washington of the Treasury Department's decision in taking over 400 feet of dock space in the Western Basin as a permanent base for the Coast Guard fleet.

HOW COURTESY IS STRANGLED

(Continued from First Page)

she'll have to pay a deposit in advance. "But she's a property owner and has accounts at two banks and a dozen stores."

"Can't help that—she'll have to put up a deposit or no service!" And it took six minutes of answering questions and sixteen minutes of waiting to get a chance to answer them and twelve minutes more to get a new bill from window No. 6.

GETTING A PHONE
At the telephone company, after some little argument about metered rates, the Politeness Reporter was informed thus:

"Say, listen! The Railroad Commission has ordered metered rates. Now we don't care whether you have phone service or not—that's up to you; but if you do have it, you'll have it on metered rates and if you don't pay your bills on that basis promptly we'll take the phone out! And that's that!"

But at the adjustment window a pleasant-voiced young man searched through records a year old trying to find something about a mythical bill for a cablegram which was supposedly sent to Camp, who is a young Hollywood automobile dealer.

And on the second floor a young lady handling collections went to additional trouble in trying to get an itemized bill on long distance charges covering a period of six months.

Then the P. R. tried the Western Union. An attempt to get into an argument over the telephone was kindly but firmly refused at the counter. A young woman at the delivery desk searched through several truckfuls of messages to find the one which the reporter was sure had been sent but had not been received by him, and finally his name on a pink slip for a still further search. A man at a side desk didn't want to subscribe to the Times. The reporter supplied a new calendar on the wall and began to ask for one.

From office to office he went on the upper floors looking for someone who had a calendar like that to spare. It really was a good-looking calendar; the reporter would like to have one. (Adv.) But no one seemed to know anything about it until he arrived on the third floor, room No. 360. There a polite information girl asked him the routine question. "You'll have to wait a minute," she said. "She's out right now for a minute, but if you'll wait she'll be right back."

THE PRIZE WINNER
Mrs. Alice Weatherman, of the sales department, is the prize winner as the most polite employee of our public utilities which the reporter asked her to give him. She won the prize not because she was polite to the outsider who was trying to get a calendar, but because she was willing to step across its boundary to get it. She said:

"I'll tell you what I'll do for you—I'll take your name and address and I'll write the head office in San Francisco, and if there's any possible chance for you to get one, I'll get it for you. Not that I'm promising it, mind you, but—I'll try it once for luck. Now if you will give me your card—"

And she only card the reporter gave her his identity and announcing the \$20 prize.

VIOLATION OF STATE
BEDDING LAW CHARGED

Leo Wilek and George Murdock, of the Murdock-Wilek Company, 1743 East Ninth street, were arrested yesterday afternoon for an asserted violation of the State bedding law. They were charged with having sold mattresses to Roy W. Vance, State mattress inspector, have been manufacturing mattresses in violation of the law.

The defendants will plead not guilty to the charge. Trial has been set for February 19. They were released on their own recognizance.

ASSESSMENTS UPHELD
The City Council yesterday agreed to deny all appeals against the assessments totaling \$344,500 for the filling and grading of streets in the Banning Boulevard and Eastern sections of the Wilmington district, but ordered a large number of the assessments readjusted. The revised assessments are expected to be approved by the Council this morning.

WIFE BIDS HIM AIRY GOOD-BY

Husband Asserts Spouse Lured Away by Plane Rides

"Come take a ride in my airplane," might have been the gist of a story for which Clarence L. Goode, of the harbor district, asserted his wife, Carmel A. Goode, fell. Goode's allegation was contained in a suit for \$75,000 damages he filed yesterday against Vernon Winship for the asserted alienation of Mrs. Goode's affections.

Goode said he and his wife were married in Texas in 1923 and were living happily together until his wife met Winship about a year ago. Goode charged that Winship stole Mrs. Goode's love for her husband by taking her on airplane rides, automobile trips and by other means. He stated Winship finally induced her to leave the plaintiff and his home.

URGES STATES CO-OPERATION

(Continued from First Page)

once a resident, stating that in minerals alone that State's riches are assessed only in trillions. "And it should be remembered that all the way from Utah to Los Angeles is downhill over an excellent road and we ought to make the most of it," concluded Mr. Farrell.

Following the luncheon, the Utah delegation went into conference with local business men and others for an informal discussion of plans for co-operation. It was to follow up yesterday's meeting by arranging for a trade excursion of Los Angeles representatives through the intermountain territory some time in the near future. Representatives of the Chamber of Commerce also agreed to furnish the Utah delegation a detailed outline of the production of Los Angeles factories, while Utah will furnish the chamber a similar outline of the productions of that State, for which it seeks a market.

Aside from Gov. Dern and Ralph E. Bristol, the Utah delegation included W. F. Jensen, former president of the Utah Lake Chamber of Commerce; Ross Beason, of the Beason Investment Bankers; Frank A. Fisher, banker, and Preston Wilkey, banker, both of Salt Lake City; Albert Merrill, member of the board of governors of the Utah Lake Chamber of Commerce; William H. Butler, editor of the Salt Lake City Utah; J. E. Frick, Justice of the Utah Supreme Court; and Howard W. Smith, a local man, and Pearl Kirkendall, ex-Mayor of Ogden.

GOV. DERN WILL
SPEAK AT DINNER TONIGHT

Gov. Dern of Utah will be the honor guest and will address a gathering of Utah people at a dinner to be given by the former students and friends of the University of Utah at the University Club of Los Angeles at 814 South Hope street, at 4:30 o'clock tonight. An invitation has been issued to all friends of the Utah institution and the delegation of representatives from the chambers of commerce of Utah now participating in a joint conference with officials of the Chamber of Commerce of Los Angeles will be present.

MISSION WORK COSTS SOARING

(Continued from First Page)

women pledged \$1500 for the work of the national church, and the men increased this by an additional \$6000. Menell says, vice-president of the church pension board, summarized the pension activities of the denomination, declaring he believed the Episcopalians are leading all churches in that respect.

Bishop Johnson and Bishop Co-adjuutor Stevens delivered their annual addresses. Bishop Johnson sketched his thirty years of work in the diocese, calling attention to the gain in communicants from 2000 to 18,000 during that time.

Nominations of diocesan officers were made and will be voted on at today's session.

Last evening a meeting was held under the auspices of the commission of social service. Today will be given over to a business session with the annual dinner to take place this evening.

happens more so than any other age or time. We have our wolves and wild Indians.

For instance you will discover—if you ask—that an absolutely staggering number of people are afraid to ride in elevators.

They can't stand the shut-in feeling. Most of them ride, nevertheless; and thereby acquire neuroathetic "complexes."

The pity of it is that this dread is always the reflection of something worse. It is the unconscious reaction of souls shut in in some other way.

Our volatile friend, Elmer Glyn, says that people who are afraid to ride in elevators have been buried alive in some other life. But she is wrong, of course. Most of them are afraid of elevators because—in one way or another—they are buried alive right now—and are trying to struggle out.

VETERANS SEEK JOB
FOR DISABLED BUDDY

The United States Veterans Bureau at Los Angeles is trying to find a position for Benjamin F. Schmidt, disabled veteran, who has been trained as a junior accountant. Schmidt suffers from deafness, but, it is stated, is qualified to keep a set of books provided he is not required to meet the public. Schmidt holds a Bachelor of Arts degree from Wabash College. His record with the bureau, it is stated, has been good, and he has a family dependent upon him for support.

Picture to be Made Here Starring Barthelmess, Now Ill in New York

The executives of Inspiration Pictures arrived here yesterday to make a picture on the West Coast. Barthelmess is ill in New York at the time of the party's departure.

Arriving yesterday were Sidney Olcott, director; Boyce Smith, vice-president and general manager; Lillian Hayward, artist, and six others.

Although it is not yet decided what studio the picture will be made at, the story will be "Ransom's Polly," from the story by Richard Harding Davis. Barthelmess will play the lead and the feminine lead is yet to be decided, though Lois Moran, who played opposite Barthelmess in "Jon Suppoe," is being considered, Smith declared.

Temporarily the party will make its headquarters at the Ambassador. Barthelmess is expected to arrive here a week from Monday.

Los Altos Apartment Homes Give Concert

Lenore Killian, contralto

Jack Smith, leader of Jack Smith's Dance Orchestra

Sol Hoopii and his Novelty Trio

SPECIAL CONCERT
Prior to the dinner-hour concert from Leighton's Arcade Cafeteria orchestra, directed by Jack Cronshaw, patrons of the station were entertained from 4 until 5 o'clock with a special concert direct from the California Fruit Exposition at Alhambra, given by Robert's Golden State Band, winners of the open competition to name the best band in the state, with Sara Carlin, brilliant soprano soloist, frequently heard from the studio, appearing with several beautiful selections. She was chosen as the featured soloist for the exhibition, appearing regularly with Robert's band and also with the special orchestra organized for the exhibition by Jack Cronshaw.

Bullock's Closes at One o'Clock Saturdays

Bullock's . . . "One o'Clock Saturday" . . . Basement Store

This Advertisement for

Mystery Veils Hurts Received by Dazed Girl

Suffering from cuts about the mouth and a bruised left eye, a young woman giving her name as Miss Muriel Cobbs, 25 years of age, of 627 North Beachwood Drive, was found by Hollywood police officers yesterday at the home of S. Smith, 248 North Plymouth avenue, where she had appeared shortly before Smith told the officers that the young woman had stumbled up to his door and pressed the bell.

The girl said she could not remember how she had been injured but thought she had been in an automobile accident. She was taken to her home, where her mother said that she would care for her. Officers Nave and Rice stated in their report on the case. Miss Cobbs told them that the last she remembered she was drinking coffee in a Seventh-street cafe with a friend.

The officers attempted to locate the man with whom Miss Cobbs went to the cafe through information she furnished but they were not successful.

Wife Declares Mate Urged Her to Have Affairs

Dr. W. I. Schuster's conscience hurt him, and thereby hangs a tale of marital cruelty, according to the divorce complaint filed yesterday by Mrs. Gusie L. Schuster.

For the doctor's conscience hurt him because he had been carrying on with other women and so, to ease the pain, he suggested that his wife do a little carrying on with other men, which he went over in connection with the suit, the complaint indicated.

"If you make me jealous it will cure me," was the substance of his proposal, Mrs. Schuster said.

Dr. Schuster, according to his wife, is a chiropractor. With the pleadings in the case is filed an order signed by Presiding Judge Stephens restraining the doctor from proceeding with a divorce action he has started or contemplating starting in Mexico, according to the complaint. An income which Mrs. Schuster estimated at \$25,000 a year will be quarreled over in connection with the suit, the complaint indicated.

CONFESSED SLAYER OF WIFE SENTENCED

Pasqual Ramirez, accused of killing his wife, Garcia Ramirez, November 3, pleaded guilty to second-degree murder in Judge Burnell's court Tuesday and was sentenced to serve from ten years to life. Ramirez was accused of having killed his wife in a jealous rage, accusing her of having received letters from other men.

WILL CHARGE FEE AT BRITISH OPEN

(BY CARL AND ASSOCIATED PRESS)

LONDON, Jan. 27.—With a view to eliminating unruly crowds such as bothered MacDonald Smith at the open golf championship at Prestwick last year, the Royal and Ancient Club has decided to charge admission fee to the open championship tournament at Lytham and St. Anne's next June. The fee will also be charged at the amateur championship meeting at Muir Field in May.

This will be the first time in the history of British golf that admissions will be charged.

Promoter of Grange Game Makes Profit

P. H. Halbritter, promoter of the "Red Grange" football game, made around \$15,000 for his three weeks' labor. It was divulged by official figures announced by the Coliseum management yesterday.

Halbritter's end of the gate amounted to \$100,000, and his expenses were estimated at about \$25,000.

The total gate was \$144,554.64. The government tax amounted to \$12,944.66.

C. C. Pyke, manager of Grange, received \$47,711.14 to be divided between the Illinois halfback and the Chicago Bears.

Rental on the Coliseum amounted to \$11,540.00.

The sum of \$29,492.63 was turned over to newspaper charities, each of five newspapers receiving \$589.85 to be given to any charity they may designate.

Fields Stars in Smoker at Santa Monica

Jackie Fields featured a smoker at the Santa Monica Athletic Club last night, boxing Ted Snogole in a three-round exhibition. Fields showed a classy pair of dukes for a well-billed house. George Godfrey was originally scheduled to appear on the program, boxing Manny Kaplan, but was forced to appear solely as a referee due to an injured hand.

Four fast prelims and a battle royal served as a background for the Fields battle. Tommy O'Brien, the well-known lightweight, refereed one bout, while Abe Roch was regular official of the evening.

Bert Eberling and Sailor Lane, both former pugilists of note, acted as judges. Moe Fogel and Dr. Clancy, members of the club, staged the entertainment.

DOUGHERY CAPTAINS BEAR FROTH QUINTET

(EXCLUSIVE DISPATCH)

UNIVERSITY OF CALIFORNIA, Jan. 27.—Ralph Dougherty, star forward of the University of California freshman basketball team, has been elected captain of the 1926 hoopers.

Dougherty, a graduate of Berkeley High School, has already made quite a name for himself at California. Ralph was also an outstanding member of the freshman football squad that handed the Stanford Gridders a severe trouncing last season.

TROJAN AND CLUB FIVES TO HOOK UP

Twin Cage Program is on Bill for Olympic Court Tomorrow Night

An attractive double basketball program has been lined up for the Olympic Auditorium court tomorrow night when the University of Southern California varsity and freshman fives hook up with the L.A.C. Blues and Mercuries, respectively. They will return clashes in both instances.

In a previous meeting between the Trojan varsity and the L.A.C. Blue cagers, the southern California quintet won out, 22 to 20, after a torrid battle which was in doubt up to the final whistle. After the Trojans had piled up a big lead, the Blues rallied in the

Pacific Coast Yachtsmen Invited to Enter Craft in Trans-Pacific Honolulu Race

MANY ENTRIES ARE EXPECTED

Malibar IV May Start in Trans-Pacific Dash

Amateur Sailors to Receive Chance to Make Trip

Numerous Trophies Offered to Each Class Winner

Official invitations signed by Albert Holland, chairman of the 1928 Honolulu race committee, were mailed yesterday to all yachtsmen on the Pacific Coast, who own craft of forty feet or over and up to enclosed in the letters were entry blanks and all particulars concerning the trans-Pacific dash, which will start off the breakwater in the Los Angeles harbor at noon, June 15.

MANY ENTRIES ASKED
In his letter Holland asked for as many entries as possible. He pointed out the fact that a large number of yachts making the Honolulu dash would assure more competition, more interest in the race and a closer finish. Several hundred letters were sent and action is expected within the next few weeks in the Southern California Yacht Club alone there are fifty-five possibilities. Thirteen of the yachts are of eighty feet and over, coming in Class A; sixteen come under Class B, which specifies a craft of from fifty to eighty feet and will be twenty-five in Class C from forty to fifty feet all over.

Clarence White, owner of the Malibar IV, flying the colors of the Newport Yacht Club, is seriously considering entering his ship. She is a schooner-rigged, forty-six foot, all over and up to enclosed in the letters were entry blanks and all particulars concerning the trans-Pacific dash, which will start off the breakwater in the Los Angeles harbor at noon, June 15.

AMATEURS GET CHANCE
Amateur yacht enthusiasts, who are without a craft of their own will be given an opportunity to sail with one of the yachts. Applications made to Holland will be taken under consideration. It is anticipated that many amateurs will take advantage of the offer. The complete list of prizes to be donated was also announced. Prizes for first, second, third, fourth, fifth, sixth, seventh, eighth, ninth, tenth, eleventh, twelfth, thirteenth, fourteenth, fifteenth, sixteenth, seventeenth, eighteenth, nineteenth, twentieth, twenty-first, twenty-second, twenty-third, twenty-fourth, twenty-fifth, twenty-sixth, twenty-seventh, twenty-eighth, twenty-ninth, thirtieth, thirty-first, thirty-second, thirty-third, thirty-fourth, thirty-fifth, thirty-sixth, thirty-seventh, thirty-eighth, thirty-ninth, fortieth, forty-first, forty-second, forty-third, forty-fourth, forty-fifth, forty-sixth, forty-seventh, forty-eighth, forty-ninth, fiftieth, fifty-first, fifty-second, fifty-third, fifty-fourth, fifty-fifth, fifty-sixth, fifty-seventh, fifty-eighth, fifty-ninth, sixtieth, sixty-first, sixty-second, sixty-third, sixty-fourth, sixty-fifth, sixty-sixth, sixty-seventh, sixty-eighth, sixty-ninth, seventieth, seventy-first, seventy-second, seventy-third, seventy-fourth, seventy-fifth, seventy-sixth, seventy-seventh, seventy-eighth, seventy-ninth, eightieth, eighty-first, eighty-second, eighty-third, eighty-fourth, eighty-fifth, eighty-sixth, eighty-seventh, eighty-eighth, eighty-ninth, ninetieth, ninety-first, ninety-second, ninety-third, ninety-fourth, ninety-fifth, ninety-sixth, ninety-seventh, ninety-eighth, ninety-ninth, one hundredth.

SUZANNE ACTS AS CHAPERONE

(Continued from First Page)
They will meet in the singles in that tournament is not decided. The American girl is paired with C. F. Aschbacher in the mixed doubles while the French champion is paired with Henri Cochet. On Saturday Suzanne will play her mind whether she will play in the singles.

When asked to tell frankly whether she intended to meet the Californian, Miss Langlen replied: "My program is unchanged since I made my statement on December 16. I will play in the singles in three tournaments, as I planned previous to Miss Willis' arrival."

STRONG RIVALS

The American champion will continue her play in the Galles tournament at Cannes tomorrow, when she will meet the Russian Vlasov, coach of Didi Vlasov, finalist in the Metropolitan, later in the day, she will play Miss Cochet, who defeated Mrs. Mallory at Montevideo, 6-0, 7-5.

MISS WILLIS WEATHERS

Both rounds without difficulty. Speaking without bitterness, but with emphasis today, Miss Willis remarked: "I do not intend to play in the singles, but I will play in the doubles."

BROADCASTING OF BOUT MAKES SANGOR IDOL OF RADIO FANS

Joey Sangor, radio idol. That may sound a bit strange for a pugilist, but Joey made a big hit over the ether the night he fought "Doc" Small. The bout broadcasted over the radio and letters are still coming in congratulating Sangor upon his great up-bill.

One telegram received by Joey Sangor from a Florida boxing fan, who said: "I am a great fan of yours, you should have had the decision."

Joey, who boxes Bud Taylor next Wednesday night at the Olympic Auditorium, fought eight of the greatest rounds ever seen at Hollywood when he came back after being knocked down in the first and second rounds. Experts contend he should have received the decision.

Evidently Alan Hale, the movie star, who did the

Water and Power Employees' Committee Show On

There will be a first-class amateur athletic show at the Olympic Auditorium tonight, consisting of four boxing bouts and three wrestling matches between men from L.A.A.C. and the Pacific Coast, United States Navy, and men from the Department of Water and Power.

Some of the participants are: Sam Fisher, L.A.A.C. C. C. Patton, L.A.A.C. H. J. Archambeau, U.S.S. Marine Corps 167-pound wrestling champion; Russell V. J. amateur champion welterweight of the world; E. D. Gill, Pacific Coast 160-pound amateur boxing champion; J. L. Lancaster, U.S.S. Pennsylvania; Willis Tizman, the Van Nuys wrestler of the Department of Water and Power, George Memic, the former star of old days will be seen in a referee.

There will be many other classy performers. A few vaudeville acts will be presented also.

The show is being put on by the Department of Water and Power employees' athletic committee under the auspices of the Olympic Auditorium and they have made the interest in the show, cents for any seat in the house.

Just about the time Sam Fisher dropped off into a state of coma, he began to have visions of a one-armed wrestler selling pencils on the street corner. However, C. C. Patton of the Los Angeles Athletic Club grappling force took pity about that time and released his victim from the bone-cracking hold. Both wrestlers star for the Mercury club on the mat.

Culver Squad Clashes in Big Game With Hockeyites of Palais de Glace

First place will again be the stake in the ice hockey game at the Palais de Glace tonight when the Palais team meets Lloyd Cook's Culver team.

Victory for the rink sextet will give it a tie for the top position in the league with the Richmond club. And the rink team has an excellent chance. It defeated the Culver squad the first time the two teams met and since that time its line-up has been materially strengthened while the Culver team does not look as strong as it did at the outset of the season.

This aggregation looks like the strongest ever assembled by a Southern California club with a line-up of reserves almost as good as its first string. The only present weakness is at goal. Canham, an American, and Thompson, the other prospect, has been out of the game for several years. If this important hole can be stopped, the Palais team looks like the coming champion squad.

TROJAN FIVE BATTLES CLUB

(Continued from First Page)

has half and threatened to overhaul the Cardinals and the Gold outfit. The Blues claim that only a lack of time saved the Trojans from a licking and that in the last two years, the Trojans have won every trophy from the A.A.C. cagers and hope to keep up the record.

The preliminary battle, which brings together the L.A.A.C. Mercuries and the S.C. Trojans, should also be an exciting battle. In a previous encounter the Mercuries handed the Trojans a trimming, but in justice to the Trojans it must be admitted that they did not have all their regulars in the line-up. The Trojans appear to be matched and a hot struggle should ensue. According to Charles Wesley Keppner, who is known as the L.A.A.C. scout, the Trojans will get under way shortly after 7 o'clock.

HARRY GREB TO BOX HOLLEY

(Continued from First Page)

fed with seeing the middleweight champion of the world fighting to a decision at Hollywood Legion stadium prices will get a good fill of excitement. The fight is booked by Tom Galloway.

LEONARD GARCIA IN THE SEMI-WIND-UP FIGHTING JACK RYCHELL

is a bout that also looks good. The Filipino, Garcia, is a whale of a boy in action. He hasn't the sock of some of the other fighters, but he is when it comes to throwing boxing gloves. Rycheill is a good puncher and an aggressive scrapper.

ONE MORE FIGHT THAT LOOKS GOOD

is the special event featuring Johnny Holley and Johnny Mendez. Holley is the local favorite and Holley in the special spot makes it look all Holley. Greb in the main event is favored over Buck, but Johnny will be given the edge to beat Mendez.

INTRODUCING COAST LEAGUE NEWCOMERS

BY CHARLES J. FOREMAN
JESSE E. FOWLER, pitcher, Oakland. Born, Charleston, S. C., October 18, 1900. Height, 5 feet, 10 1/2 inches. Weight, 158 pounds. Throws left-handed. Bats left-handed. Club in 1925—Spartanburg, South Atlantic Association. First engagement—Spartanburg, 1922. Also with this team in 1923 and 1924, and finished 1924 season with St. Louis National.

1925 record—Games, 19; innings pitched, 133; hits permitted, 130; bases on balls, 63; strikeouts, 43; earned-run average, 3.73 per game. Won ten games and lost seven. Batted 137 and fielded 92.

Participated in seven games with Oakland, pitched twenty-five innings, and being credited with one victory and no defeats.

ROUNDING THIRD

by Hugh A. Jennings

WHEN TIM SHOVED THE "QUEER" Chapter LXI

Tim Hurst's home was in Ashland, Pa. One summer his father came to New York to see Tim, bringing Timothy Mulcahey, an Irish saloon-keeper of Ashland, along with him. Hurst introduced his father and Mulcahey to his gang in New York. There were several practical jokers in the lot and Mulcahey was one of them. Tim was now convinced that the gang had told Mulcahey he was a counterfeiter.

(Copyright, 1928, in the United States and Canada by Hugh A. Jennings. All rights reserved.)

"If you're going to play in your jokes, play 'em on Mulcahey, but play off me, Tim. He ain't to be made sport of."

Tim had to spend his afternoons at the ball park, so he left his father and Mulcahey in charge of the gang. Mulcahey went along fairly well, but Tim noticed that Mulcahey began to treat him rather coolly. But after Tim's father and Mulcahey returned to Ashland the gang informed Tim that Mulcahey was a counterfeiter, connected with the worst counterfeiting gang in the country. Tim spent one of his mornings and evenings on the road planting the counterfeit money.

Hurst did not believe they had told Mulcahey about the counterfeiting business, at least, he was convinced Mulcahey did not swallow it, even if he had told it; but he wanted to make sure of the matter, so he decided he would investigate after the season ended.

POOLS MULCAHEY

As soon as he could get away Tim went to Ashland. He stopped at the bank and got five dollars. These he put in his inside coat pocket and strolled into Mulcahey's saloon. Mulcahey was tending bar when Tim entered. There were six or seven loafers in the place. All exchanged greetings and Tim stepped to the bar and announced he would buy a drink. The beer was drawn and, as Tim and the others in the place stood at the bar drinking, Tim pulled out one of the five dollars and shoved it across the bar to Mulcahey. The saloon-keeper looked at the money, looked at Tim, looked at the money again, then pushed it back to Tim, saying: "Never ye mind, Timothy. Yer money's no good. Th' drinks is on th' house."

Tim returned the new bill to his inside coat pocket and began a conversation on base ball. About 10 minutes later he decided he would buy another drink for the house. The drinks were served, consumed and Tim pulled out the new bill and shoved it across the bar to Mulcahey. The saloon-keeper inspected it carefully and turned it back to Tim again, telling him that the drinks were on Mulcahey.

OAKS OPEN RECORD FIELD IN FOURSOMES

George Foster May Be One of Line-up for California Year is Indication

BY A. P. NIGHT WIRE
OAKLAND, Jan. 27.—The Oakland baseball club of the Pacific Coast League will go into the field at Myrtleide stadium on March 1 with probably the best squad of players in the league. It is expected that the club will report for spring training on March 1.

Indications today were that George Foster, veteran pitcher, who was named by club officials, Mrs. A. Foster, chairman of the Oakland Oaks last year and who was named for four attractive prizes, will be awarded the winners of the first, second, third and fourth prizes.

A dozen pitchers and a dozen batters are expected to be named by the club for the first medal tournament at El Estadio, held in connection with the annual international tournament of the most beautiful course in the world—every hole presenting a different and increasingly pleasing problem.

Mr. Tarrant's home course has always been a favorite with local golfers. The competition was so keen that the club was forced to close the course for a few days. The club is now open and the competition is expected to be very keen.

WINTER PLAY

BY THE GOLFERS
Quinn is leading in the annual winter handicap tournament at the Los Angeles Country Club. The competition is expected to be very keen.

Complete pairings are as follows: FIRST DIVISION

house cars

There is a real saving of money in the purchase of a Flint "House" car.

They have the same value as a brand new Flint—they look new—are guaranteed fully yet we have reduced the price.

These house cars have served us in our sales department and have been smoothed up, tested, serviced and kept spick and span. Because of the service we have received from them we have charged off quite a bit of the list price to sales expense.

You will have to look at the odometer to tell them from new.

Take thirty minutes to ride in a Flint "Forty" or "Fifty" if you want a new conception of high gear performance. Let the cars tell you the story.

NOTE THESE PRICES

SIX "55" SEDAN \$1075
Reduction of \$612.50
SIX "55" COUPE \$1075
Reduction of \$637.50
SIX "55" ROADSTER \$1075
Reduction of \$325
SIX "55" TOURING \$1075
Reduction of \$482
SIX "40" TOURING \$1075
Reduction of \$482
SIX "40" BROUHAM \$1075
Reduction of \$370

Other Flints that have been taken in exchange as well as other cars of standard make are used car department. Priced to move quickly.

FERGUSON WINS

Mr. F. Ferguson, with 114-4, won the Class A tournament in the Los Angeles Country Club. The competition was so keen that the club was forced to close the course for

Baseballer Medley Event Sunday CUP PLAY STARTED

Mercury Soccer Team Meets Vikings in Initial Tilt for Challenge Trophy

The Mercuries, having secured a strangle hold on the local soccer league cup which they hope will eventually bring them out on top, are laying their lines to the challenge cup which the league has put up for competition.

The first round for this contest will be played next Sunday with two games being staged. In the feature game the Mercuries will seek to dispose of the Vikings, admitted one of their greatest opponents, and a real stumbling block to winning the cup.

When these teams met a few weeks ago at Inglewood, the Vikings forced the leaders to extend themselves before conceding defeat, and the Norremans have since been getting revenge for what they have maintained was a lucky victory for the club.

According to the dopers, should the Mercuries dispose of the Norremans, the way would be cleared for a formidable foe, and the path opened toward the cup final. To this end the champs will be aiming and it is certain they will achieve their ends. The kick-off is at 2 p.m.

Starting at 1 p.m., Hollywood A. C. will tackle the Thistles in a preliminary round. Odds are with the Movie boys to enter the second round. Although the Waags are given a sporting chance of reversing the dope.

The Thistles have shown considerable improvement recently, and Manager Bain has promised his followers that he would have a winner in the cup-tie competition. It is now up to Bain to make good on his promise.

RANCHO TRIMS WILSHIRE, 8-7

(Continued from First Page)

brace before the next interclub match, next week.

Several games scheduled yesterday have been postponed until next week. Midwick, Annandale and Flittridge are reported to have played several games in a three-game league, including the scheduled Flittridge-Annandale or Midwick clash yesterday.

Yesterday's incomplete results follow:

WILSHIRE, 8-7
 Goals: GABRIEL, 3; HOLLYWOOD, 2; WILSHIRE, 3. Goals by: G. Gabriel, 3; H. Hollywood, 2; W. Wilshire, 3. Goals by: G. Gabriel, 3; H. Hollywood, 2; W. Wilshire, 3.

WILSHIRE, 8-7
 Goals: GABRIEL, 3; HOLLYWOOD, 2; WILSHIRE, 3. Goals by: G. Gabriel, 3; H. Hollywood, 2; W. Wilshire, 3.

Pomona Holds Elimination Tennis Event

(EXCLUSIVE DISPATCH)

POMONA COLLEGE, Jan. 27.—Although basketball and track are now holding the sport spotlight at Pomona College, there are several other sports coming up that are being awaited with interest by many students.

The tennis and basketball teams are now holding a local tournament for the purpose of choosing the 1926 representative.

Three men have returned from last year's team and are busy trying to fill the shoes of the former team. Ralph Arnold, George Climpson and Howard Willis have shown to advantage in recent tournaments and are good prospects for the varsity. Arnold will likely rank high on the squad as he has defeated varsity players in the past.

Climpson, like Arnold, was a member of the freshman team last season, while Willis is a junior who has been coming to the front fast.

The freshman tennis players have also been getting in practice for their approaching season. Van Zee, Mills and Johnson will form the nucleus of the first-year squad.

Johnny Farr Stops King in Fifth Round

(EXCLUSIVE DISPATCH)

SAN FRANCISCO, Jan. 27.—Johnny Farr of Oakland scored a technical knockout over Vic King, the bantamweight champion of Australia, in the fifth round of what was to have been a ten-round bout at the Oakland Auditorium tonight.

From the first round to the fifth, when Referee Al Walworth stepped between them and hoisted Farr's hand into the air, King took a real licking. Farr nearly ended the contest in the first with a volley of punches to Vic's head. A left hook to King's mouth in the third split his lip. The cut bled profusely with both boys being a study in red.

Charles Griffin got a decision over Mickey O'Donnell featured the best bout of the evening. O'Donnell, the Johnny Farr fighter, was punched out by Truzy. Sammy Green and Chick Kansas drew.

Electric Nine to Clash With Biltmore Club

(EXCLUSIVE DISPATCH)

Wrigley Field will be the scene Sunday afternoon of a big triple "A" League battle between the Pacific Electric and Biltmore Hotel baseball teams. These are the fastest teams playing winter ball in Southern California and both clubs are now tied for first place honors in the big league, which is about to be brought to a close. On account of the great interest manifested and the consequent large crowd which will desire to see the contest, through the courtesy of Mr. Wrigley, personally, the gates of the big Coast League park will be thrown open the first time for midwinter ball.

The personnel of both clubs composed of practically all professional players, there being several Coast Leagueers in the two line-ups. The Triple "A" League is the highest and fastest in California in the baseball association and has secured the pick of players spending winter months in sunny Southern California.

FAVORITES ARE BEATEN

(EXCLUSIVE DISPATCH)

TIA JUANA RACETRACK, Jan. 27.—The combination of Extra Edition and Jockey Willie Menden proved a winning combination today in the feature race, winning with two and one-half lengths to spare over Reas and Brotherly Love, two other outsiders, with Marechal, the favorite, running next to last. Extra Edition covered the mile and three-sixteenths in 2:01 3-5.

Favorites again had a rough experience, but two, Shafe, in the fourth, and Delu Evans, in the final, getting home in front, Resulting:

SOCIETY

BY JUANA NEAL LEVY

With a setting of Easter lilies, ferns, myriads of lighted tapers and tulle, the wedding yesterday at high noon of Miss Lillian Winslow Jones, only daughter of Mr. and Mrs. Mattison Jones and Harold Boyd Herschman of Pittsburgh, son of Col. and Mrs. Oliver Herschman, was one of the loveliest events of the month, taking place in St. John's Church, West Adams at Figueroa street, with Rev. George Davidson officiating.

The front of the church was shaded with potted palms and ferns studded with Easter lilies. While on the altar two large vases were filled with the fragrant blossoms and the tall white candelabra with lighted tapers further carried out the green and white color scheme.

The bride given in marriage by her father wore an imported Schreiner model of heavy white crepe satin, fashioned short with musketeer sleeves, and a court train, the whole heavily embroidered in seed pearls.

The veil, which was of duchesse and rose point lace, was made with tulle and fastened by orange blossoms and pearls while she carried an arm shower of orchids, gardenias and lilies of the valley.

A handkerchief of the duchesse and rose point lace was also carried in the shower.

Preceding the ceremony an organ program was given by Roland Diggle, while Charles Wakefield Cadman, an old friend of the bride, came from Chicago to play the wedding music and also to accompany Mrs. Nell Lockwood Joseph who sang "At Dawning" and "The Shadowless Hour."

The recessional was the "Wedding March" in C. Cadman, played for the first time yesterday afternoon.

Mrs. Madison J. Keener, sister of the bridegroom, acted as maid of honor in a gown of white lace over silver cloth, with hat of American Beauty shades covered with plumes, slippers of smooth and she carried American Beauty roses.

Miss Katherine Thomas was maid of honor, wearing a frock of American Beauty chiffon, a horsehair hat with velvet bow and she carried an armful of lavender orchids with American Beauty shades tied with tulle.

The other attendants: Miss Marjorie Hamlin, Mrs. George Benjamin Hill, Mrs. Douglas Mackay Longstre, and Miss Katherine Ardis Winter, were gowned alike in grey chiffon over silk, silver cloth turbans on their heads and slippers of American Beauty shade adding the touch of color and corresponding to their arm bouquets of American Beauty roses and ferns.

Four flower girls, Drusilla Dunn, Elsie Belle Herschman, Catherine Evans and Geraldine Phillips, in frocks of grey tulle over silk, with bouquets of silver and long streamers, carried silver baskets filled with rose-colored rose petals which they scattered in the pathway of the bride.

William Fluke Landers, Jr., a fraternity brother of Mr. Herschman at Cornell University, served as best man, while Dr. Madison J. Keener, Douglas Mackay Longstre, Myron Etlins, Edward Albert Sears, Jr., Harris Woods and George Warren Wilder, Jr., of New York were ushers.

Following the ceremony a wedding breakfast was served at the home of the bride's parents, "Bel-Air," in Kenneth Road, Glendale.

AT HOME AFTER HONEYMOON

Newlyweds Welcomed by Friends

Here the same color scheme prevailed as at the church. Mr. and Mrs. Jones and Col. and Mrs. Herschman received in the drawing room, while the bridal party received in the sun room. Easter lilies, palms and potted ferns being used throughout. The bridal table held a long basket of gardenias, camellias, brides' roses and lilies of the valley with sprays of cascading fern and tulle, and the bride cut the wedding cake with an old sword which had been presented to her family by Col. Charles E. Clay, grandson of Henry Clay.

Mrs. Jones received her guests in an imported gown of bronze and gold lace over satin trimmed with baby ermine, an apricot shaded hat of the lace and with this she wore at the church a cocoa brown satin coat trimmed with fox fur.

Mrs. Herschman wore an antique lace gown over ivory satin and coral shaded hat, an ermine wrap completing the costume, and her cousin, Mrs. Albert T. Morgan of Pittsburgh, who is a house guest at the Herschmans, wore a gown of brown broadcloth chiffon velvet with brown lace hat and sables.

Mr. and Mrs. Harold Herschman are leaving Sunday for New York and will sail February 6 for the Bahamas, returning to Pittsburgh where, after March 1, they will be at home at 200 Bellevue avenue.

Col. and Mrs. Herschman entertained a number of the wedding guests at dinner informally last evening at their home in Windsor Boulevard, the special guests of honor being Mr. and Mrs. Albert Morgan and Mrs. Marjorie V. Belger of Milwaukee, Ind.

Mr. and Mrs. George R. Sturgis, the latter formerly Miss Valeria Timken of Pasadena, are receiving congratulations over the arrival of the bride. Mrs. Sturgis is also named for his maternal grandfather, William Timken Sturgis.

Mr. and Mrs. Sturgis are planning to make their headquarters at the Ambassador this winter.

Extended Trip. Mrs. Henry Howard Rose is planning to leave February 6 on an extended trip around the world and will be gone for six months or longer.

Approaching Wedding. Of much interest to local society is the wedding of Miss Elizabeth Roper, daughter of Mr. and Mrs. Norman B. Roper of West Kensington Road, and Eric Jordan, son of Dr. and Mrs. David Starr Jordan, which will take place at high noon, February 6, in the Memorial Chapel of Stanford University, with Dr. D. Charles Gardner, D.D., the Stanford University chaplain, officiating.

An interesting feature of the event is that the romance of Mr. Jordan and Miss Roper has practically the same setting as that of the bride-elect's parents some years ago. Undergraduates, the setting chosen by Miss Roper for the wedding ceremony finding its counterpart in a number of ways, among which are the fact that both Miss Roper and Mr. Jordan were graduated there from the class of 1922.

Mr. Roper will give his daughter in marriage, while Miss Margaret Roper will assist as maid of honor, and Knight Starr Jordan will serve his brother as best man. A wedding breakfast at the home of Dr. and Mrs. David Starr Jordan on the campus will follow the ceremony.

Mr. and Mrs. Roper and members of their family and relatives from the Southern states are motoring up for the ceremony.

Mr. Jordan and his bride are planning to make their future home in San Francisco, where the former is connected with the Academy of Science. Miss Roper is a member of the Alpha Phi Sorority, while Mr. Jordan is a Delta Upsilon.

Supper Party. Following the popular concert of the Philharmonic Orchestra Sunday afternoon, Mr. and Mrs. Sylvain Noack entertained with a buffet supper at their home on South Oxford avenue, the guests including Dr. and Mrs. Guy Van Dusen, Mr. and Mrs. Julian Van Dusen, Mr. and Mrs. Joseph Heindel, Mr. and Mrs. Morris Stoll, Mr. and Mrs. Henry Svodoff, Mr. and Mrs. Joseph Levy, Missa Romanoff, Vincent De Rubertis and George MacClellan.

Afternoon Affair. Cards are being issued by Mrs. Madison Hill and Miss Jean Hill of the Darby for an afternoon tea Thursday, February 4, at the Women's Athletic Club in honor of Mrs. Charles Edward Seaman, Miss Frances Seaman, Miss Helen Seaman and Miss Ellen Brown. The hours are from 3 to 5 o'clock.

Engagement Announced. Formal announcement is made of the engagement of Miss Gertrude Cohen, daughter of Mr. and Mrs. Isaac Cohen of 965 Fedora street.

Mrs. Walter Fletcher Parkin, Jr.

Mr. and Mrs. Walter Fletcher Parkin, Jr., who were married December 12, have returned from their wedding trip in the Kennel Road, Glendale, Mrs.

Parkin formerly was Miss Bernice Pinn Bann, daughter of Mr. and Mrs. Joseph Philip Bann, the ceremony taking place in St. Paul's Cathedral, the late Dean William MacCormick officiating.

Luncheon Party. Mrs. George Pennington of South Broadway avenue is entertaining a dozen friends at luncheon Saturday afternoon at her home, the guests being all members of the Xi Kappa Sigma Sorority.

For Visitors. One of the lovely affairs of the day will be the bride tea with which Mrs. Harry Tremaine is entertaining at the Bryson this afternoon in honor of Mrs. J. R. Martin of Minneapolis, who is wintering at the Maryland, Pasadena.

Diets and Health. By Lulu Hunt Peters, M.D. Author of Diet and Health and Diet for Children.

SUGAR SUBSTITUTES. IS SACCHARIN HARMFUL? Diabetic and overweight patients are, as a rule, very fond of sweets, and the excess indulgence in them is one of the causes of their afflictions. In the treatment of these conditions sweets have to be cut down, or out entirely, depending upon the degree of the disease. The longing for the sweets, however, is so intense that saccharin, a coal tar product, 200 to 300 times sweeter than sugar, but having no food value, is sometimes used.

Will any harm result from its use? The referee board of the Department of Agriculture conducted an investigation on the effect on the health of the use of saccharin, and it was found that its continued use for a long time in quantities over four grains a day would cause digestive disturbances and digestive disturbances will later produce more serious disturbances. The board holds any commercial food sweetened with saccharin as adulterated, because the saccharin is used as a substitute for sugar, which has food value, and the excess indulgence in them is one of the causes of their afflictions.

CHEF WYMAN'S Suggestions for TOMORROW'S MENU.

Breakfast. Grapefruit. Poached Eggs Santa Barbara. Corn Muffins. Coffee.

Luncheon. Back Bay Fish Pie. Lettuce, Hearts, French Dressing. Rice and Raisin Pudding. Custard Sauce. Coffee.

Dinner. Cream of Clams. Hearts of Celery. Darned Salmon Columbia. Parsnips. Mashed Potatoes. Lettuce. Thousand Island Dressing. Cranberry Pie.

POACHED EGGS SANTA BARBARA. Make a cream sauce of one and a half tablespoons of butter, two tablespoons of flour, three-quarters of a cup of milk and four tablespoons of cream. Wash half a cupful of California oysters and poach in boiling water three minutes, drain and add to the cream sauce with six cooked shrimps cut in small pieces, six thinly sliced canned mushrooms, a seasoning of salt and paprika and one tablespoonful of oil; mix well and boil five minutes. Pour over poached eggs on toast and serve.

BACK BAY FISH PIE. Pick half a pound of salt cod fish in flakes and soak in water overnight, free from all bones and skin. Slice four hard-boiled eggs in thin slices and slice four peeled onions. Line the bottom of an earthenware baking dish with a thin layer of sliced boiled potatoes, cover with a layer of fish, then a layer of sliced eggs; cover with a layer of sliced onions. This method until the dish is full, season each layer with a little black pepper and pour over a layer of cold water, in which has been mixed one teaspoonful of Worcestershire sauce, and one teaspoonful of anchovy sauce, one teaspoonful of onion juice, one teaspoonful of salt and pepper.

REMOULADE SAUCE. Rub a smooth paste the yolks of two cold, hard-boiled eggs, add one teaspoonful of mustard (dry) and gradually work in one cupful of olive oil, as in making mayonnaise, add a little at a time one tablespoonful of vinegar and when the sauce is smooth, beat in one teaspoonful of anchovy sauce, one tablespoonful of finely minced parsley, one tablespoonful of finely chopped capers, one teaspoonful of onion juice and a seasoning of salt and pepper.

Power Bureau Right-of-Way Homes for Sale. Announcement that the Department of Water and Power is prepared to sell more than 150 dwelling houses, garages and smaller buildings located on property recently purchased by the Municipal Power Bureau as a part of a high-voltage transmission line right-of-way was made yesterday by officials of the department.

Those desiring to secure detailed information regarding the purchase of the houses have been requested to get in touch with John T. Martin, right-of-way and land agent for the Department of Water and Power, at 207 South Broadway.

ACTOR TO MAKE ADDRESS. Edwards Davis, character actor and orator, will be the principal speaker at a meeting of the Brotherhood of the Willshire Boulevard Congregational Church this evening at 7:30 o'clock. The occasion has been set aside as "Masonic night." Dr. Frank Crane, writer and lecturer, will attend the meeting and give a short talk, Rev. Frank Dyer, pastor, will preside.

COFFEE JELLY. One heaping tablespoonful of gelatin, one cupful of cold water, three cupfuls of boiling coffee, two grains of saccharin. Soak the gelatin in cold water. Add the boiling coffee and saccharin. Stir the gelatin until it is dissolved. Mold and chill. This will make about six servings. Food value of one serving, five calories.

GELATIN WHIP. Soak one heaping tablespoonful of gelatin in one cupful of cold water; then dissolve it in two cupfuls of boiling water. Add two grains of saccharin, then add one-half cupful of fruit juice. When the mixture is well mixed, add a little cold water to set, with an egg-beater until light. Chill thoroughly or freeze. This will make about six servings. Food value of one serving, ten to fifteen calories.

Tomorrow—Precautions while reducing. Soak new brooms in boiling hot salt water before using. Dry thoroughly. This process toughens the bristles and prolongs the life of the broom.

Advise Women to adopt new hygienic method and retain freshness this way; true protection; discards laxatives.

LARGELY on medical advice, women are abandoning the old-time "sanitary pad" for a new way that supplants uncertainty with positive protection.

Shoe frocks and ill-timed social engagements no longer remain as worries. Lost days are fewer, and health better.

It is called "KOTEX." Ends the insecurity of the old-time sanitary pad. Five times as absorbent! And deodorant—ends ALL fear of leaking.

As easily disposed of as a piece of tissue. No laundry. No embarrassment.

You get it at any drug or department store simply by saying "KOTEX." You ask for it without hesitancy.

Costs only a few cents. Eight in 10 better-class women employ it. Proves the risk of old ways.

KOTEX. No laundry—discards like tissue.

The Woman and Her Job

BY VALERIE WATROUS

Questions concerning the problems of women who wish to obtain money for their education should be addressed to Mrs. Watrous at The Times.

WORK FOR THE COLLEGE GIRL. Dear Mrs. Watrous: I am a student in college and I am looking for the summer months to obtain money for my clothes for the following year. I can do typing and shorthand, and would like to learn any other sort of business that would help me to get money for the summer months. Do you think there are any places open for so short a time? My dear G. V.

Vacations begin in June, and in many of the large organizations by the 15th of May. Of course, work is usually arranged so that as few substitutes as possible are employed. But there are a great many calls for extra stenographers at this time. Agencies if it is only for a few days' work but in other offices it is for the full two weeks. Often it happens that the girl who is called on for a brief vacation period may continue with the same firm throughout the vacation period, filling in at the different desks.

Of course, the filling in for experienced stenographers, but if a girl is well educated and can rapidly stand a fair chance of getting a trial. If you can bring up your speed between now and the time you go on vacation, you will have a greater confidence in yourself when applying for work.

I am taking it for granted that you have had no experience, also that stenography and typing are college subjects. If they are not, you will find it difficult to take them this coming semester. A letter from your teacher commanding your proficiency would help you with the employment agencies.

A great many of these substitutes are called on to the employment department of the typewriting agencies. If you go out for a desk job and can get the firm you have been working for to call the agency and report their favorable impression of your work, it will help you in getting another position.

The girls who work through these agencies do not get an application blank and then go to the office every morning and wait until they are sent out. There always are a number of girls waiting for work, and, of course, when a call comes in the employment manager sends one of those waiting girls to the office.

I would not dissipate my energies trying to learn some other line of work. If you concentrate on the stenography and typing, you will find it easier to get a job.

The circulation departments of newspapers frequently employ college and high-school girls for special work on Saturday, or Friday afternoon. This extra work doesn't justify the employment of an extra girl throughout the week, and by having a girl come in on Friday afternoon or Saturday the desks are kept clear. It also assists some girl through school.
